# Vision & Mission

## Our Vision

**Transform in a sustainable manner, the lives of all those we touch, by nurturing and empowering them to maximize their true potential**

The power of business is in its purpose, not its profits. Marico today is more than just a business and we are guided by the responsibility of defining, creating and distributing value and the dedication to help our stakeholders realize their true potential. This shared vision gives us a unified sense of purpose and commitment to being the best in everything we do.

## Our Mission

**Make a difference**

Our sustainable growth story rests on an empowering work culture that encourages our members to take complete ownership and make a difference to our entire business and social ecosystem.

## Strategic Objectives

Towards our business aspirations, the Company has identified areas of transformation where it will develop top quartile capability, processes and execution excellence. Our Strategic priorities Growth Of Core Categories, Innovation, Cost Management, Go To Market Transformation and Talent Value Proposition.

As MBL expands, we are equally focused on facilitating our growth platforms while continuing to strengthen governance and processes. The Company's philosophy and focus is aligned with that of Marico Group, under the "One Marico" umbrella, to develop capability ahead of growth and create winning brands, winning culture and winning talent pool, to embed an enabling environment of innovation driven growth.

# Chairman's Letter

Saugata Gupta  
Chairman

“Despite the increasingly challenging environment, we were able to grow our business profitably. This would not have been possible without our people. Our members went above and beyond to not just to deliver business results but to impact, disrupt and inspire. Marico celebrates its members who are the true driving force of this organization making a difference.”

## Dear Shareholders,

It gives me great pleasure to share with you an update on the overall performance of your company in the financial year 2017-18 (FY18). On behalf of the board, I am delighted to present the Annual Report for FY18 and welcome you all to the 18th Annual General Meeting of the Company.

Brand, talent and culture continue to be our key assets to deliver sustainable business growth and make a difference in the lives of all those who we touch. The year under review has been a year of revival for your Company with the business delivering both volume revenue and profit growths. We were able to achieve this as a result of a sharp focus on our strategic building blocks of strengthening the core, creating a future-ready portfolio,

managing costs, and investing in people and process capability ahead of the growth curve.

Management team of your company led by the Managing Director (MD) Mr. Naveen Pandey are firmly committed to run day-to-day operations and steer it towards its' aspiration of ensuring the business growth planned as part of the company's strategic plan by 2020.

FY18 has been a good year with your Company registering 13% revenue growths, 14% profit growth. This growth was driven by the price growth in the Branded Coconut Oil Category led by Parachute Coconut Oil and volume growth in the Value Added Hair Oils (VAHO) portfolio of the Company. The VAHO category witnessed a 32% growth

in volumes driven by winning brands like Parachute Advansed Beliphool and Parachute Advansed Extra Care. The “Others”/non-hair oil portfolio has also seen positive growth derived from brands like Parachute Advansed Body Lotion and Saffola Active Blended Edible Oil. At a full year level, the “Others” category has delivered a volume growth of 10%. Your Company has also delivered an increased earnings-per-share (EPS) over last year.

In FY18 your Company expanded its portfolio of winning brands with the launch of Parachute Advansed Men’s Hair Cream and Hair & Care Fruit Oils further expanding its presence in the male grooming and nourishment space. Existing brands like SET WET Hair Gels were re-staged with new variants and new packs while a new crème format was introduced under the HairCode hair color brand.

Our flagship brand, Parachute has maintained its leadership position and now holds the highest ever market share in the Branded Coconut Oil space. Our Value Added Hair Oils (VAHO) portfolio has seen significant momentum with your Company now occupying the second highest market share in the VAHO category. VAHO portfolio now contributes 26% to our business turnover while being a key source of diversification and growth for our business. Our brand HairCode also commands leadership position in the powder color category.

In 2017 ‘Parachute Advansed’ won the award for Best Hair Oil Brand in Bangladesh and was also celebrated as one of the top ten brands in Bangladesh. Additionally the Kantar Global Panel also listed Parachute as one of the top five FMCG brands in Bangladesh.

Naveen and his Management team have accelerated Marico’s journey of building capabilities at the organizational level. There has been consistent focus and drive on ensuring that critical building blocks are in place to support the future aspirations of the business. The first phase of Go-to-Market (GTM) strategy has been successfully implemented and we have continued business process transformation in supply chain and finance to leverage the power of technology and innovation.

During the year we have completed the implementation of Order Management System which delivered significant savings in man-hours and smoothed our sales and operations processes. We have initiated localization of products to reduce import dependency and build technical capability and know-how in Bangladesh. Our refinery operations have stabilized and we have also expanded capacity at our manufacturing units. Safety and Quality are core to our operations which are consistently driven by initiatives like “Safety Week”, “Quality Week” & “Act Now” in our plants through the adoption of best practices.

We believe that the power of a business is in its purpose and our stated purpose is to “Make a Difference”. Sustainability and corporate citizenship have continued to be at the heart of our business. We have identified sustainability focus areas across the business with a particular emphasis on energy consumption and water management. In the last year we have reduced overall energy consumption by 3.1%, reduced consumption of fossil fuel by 9.9% and reduced water consumption by 1285 kilolitres at our manufacturing units.

We have continued our association with Dhaka Ahsania Mission to bring free, quality education to more than 3000 underprivileged children in Jamalpur Upazila through running a community inclusive program. We have set up Child Learning Centres which besides imparting education have had a transformational impact in social awareness of child rights and welfare.

Your Company is focused on driving consumption and delivering strong, profitable growth as part of our commitment to maximizing shareholder value. Our vision for the future is to continue to strive hard to fulfil Marico’s potential, and contribute to Bangladesh’s economic & social growth story as an emerging market MNC.

Along with our members, I would like to extend my sincere gratitude to our esteemed shareholders. I also give thanks to all members of the Marico family whose relentless efforts underlie our business performance today. I look forward to an exciting year of strong performance from your Company and to receiving your continued support and encouragement.

With warm regards,

Sd/-

# Profile of the Board of Directors

**SAUGATA GUPTA**

Chairman – Nominee Director

Mr. Saugata Gupta is the Chairman of Marico Bangladesh Limited, a role he has assumed since 2013. He is also at the helm of Marico and leads the Company's operations both in India and its International Business. Saugata joined Marico in January 2004 as Head of Marketing and was elevated to CEO of the India business in 2007. In April 2013, Marico restructured its Consumer Product Business (CPB) in India and International Business Group (IBG) under Saugata's leadership as the CEO of Marico Limited, the unified FMCG business. Thereafter, in March 2014, he was appointed as the Managing Director of the company.

Saugata started his career with Cadbury India Limited (now Mondelez India Foods Private Limited), where he spent 9 years in various roles in Sales and Marketing with his last role being Marketing Manager - Chocolates. Prior to joining Marico, Saugata was Chief of Marketing and Group Sales at ICICI Prudential and was part of the startup team that was instrumental in establishing ICICI Prudential as the largest private sector Insurance firm in the country.

Saugata's illustrious career consists of 25 years of experience primarily in FMCG sector. He has an engineering degree from IIT Kharagpur and a Management degree from IIM Bangalore.

Saugata was ranked #4 and #47 in the FMCG sector and Pan-India respectively in the Business Today-PWC list of India's Top 100 CEOs in 2017 and was ranked as 'India's Most Valuable CEOs' by BusinessWorld in 2016.

**ROKIA AFZAL RAHMAN**

Independent Director

Ms. Rokia Afzal Rahman joined as an independent director in October 2014. She is Vice President of International Chamber of Commerce - ICC Bangladesh, a Trustee Board member of Transparency International Bangladesh – TIB and is also the founder President of Bangladesh Federation of Women Entrepreneurs.

Apart from being a leading woman entrepreneur in the agro, finance, media, real estate and power industries and a former Advisor to the Caretaker Government of Bangladesh, she is also on the board of Grameenphone Limited and Bangladesh Lamps Limited as an Independent Director. She is currently the Chairman of R.R. Cold Storage Limited, Arlinks Limited, Aris Holdings Limited and R. R. Estates Limited, Chairperson of Mediaworld Limited ("The Daily Star") and MIDAS Financing Limited. She is a Director of Mediastar Limited ("Prothom Alo") and Ayna Broadcasting Corporation Limited (Fm Radio Station - ABC Radio). She served as a Board Member of the Central Bank of Bangladesh, and the President of the Bangladesh Employers Federation – BEF. She was also a Director of Reliance Insurance Limited. She is the former President of Metropolitan Chamber of Commerce and Industries – MCCI, Dhaka.

Her commitment to development brought her to the Boards of a number of development organizations. Ms. Rokia Afzal Rahman serves on the board of BRAC. She is Chairperson of Banchte Shekha, Jessore - working for the underprivileged and extremely poor. She is a board member of Grameen Telecom Trust, MRDI (Management and Resource Development Initiative) and DNET. Ms. Rahman is the Chairperson of Presidency University.

Ms. Rahman has received several international and national awards and is truly a beacon of excellence for both women entrepreneurs and aspiring businesspersons alike.

**MASUD KHAN**  
Independent Director

Mr. Masud Khan joined MBL as an Independent director in October 2014. He is an experienced professional of 38 years work experience in leading multinational companies in senior management positions and has been serving as a Director in several company boards.

In the course of his career Mr. Khan has dealt with several multilateral agencies in raising project finance, project management, tax planning and management, financial and management control, IFRS and financial reporting, IT, Internal audit, Strategy, HR techniques such as Hay evaluation, pay and benefits survey and assessment centers.

Mr. Khan is currently the Chief Executive Officer (CEO) of M. I. Cement Factory Limited. He did his Bachelor of Commerce with Honors from St. Xaviers' College under University of Kolkata and thereafter qualified with distinction both as a Chartered as well as a Cost and Management Accountant from the Indian Institutes. Prior to joining M. I. Cement Factory Limited, he worked for Lafarge Surma Cement Limited as Chief Financial Officer from 1999 till 2017. He also worked at British American Tobacco as Finance Director for 20 years at both home and abroad. He is also an independent director of GlaxoSmithKline, Berger Paints Bangladesh Limited and Viyellatex Limited. He is actively involved in improving the education in schools and colleges in his native village at Chunati in Chittagong. He is also the guest faculty of the Institute of Chartered Accountants of Bangladesh (ICAB).

**ASHRAFUL HADI**  
Independent Director

Mr. Ashraful Hadi was appointed as an Independent Director for Marico Bangladesh Limited from April 25, 2016.

An advocate of the High Court Division of the Supreme Court of Bangladesh and Barrister-at-Law from the U.K., Mr. Hadi is a Partner at Dr. Kamal Hossain and Associates, one of the most reputed and the leading law firms in Bangladesh. He is also a Member of Executive Committee of Bangladesh Supreme Court Bar Association. He has over 17 years of experience as a lawyer both at home and abroad. His practice over the years has involved working with various multinational and local organizations where he has acted as counsel as well as provided legal advice in the areas of telecom, admiralty, large infrastructure projects, IT, commercial and international trade disputes, arbitration, banking and securities market, taxation and constitutional law and so on. He has also acted as counsel in several public interest litigations for protection of fundamental rights.

Mr. Hadi completed his B.Comm from the University of Chittagong in 1992, received LL.B., Hons from the University of London in 1998 and was called to the Bar of England and Wales, UK in 1999.

**SANJAY MISHRA**  
Director

Mr. Sanjay Mishra is the Chief Operating Officer (COO) – India Sales and Bangladesh Business at Marico Ltd., responsible for the Go-To-Market (GTM) Transformation endeavor in line with Marico's portfolio of the future, and reinforce the Sales function. Along with spearheading the Sales for Marico India, and overseeing the Marico Business in Bangladesh, he is also leading the New Business Portfolio.

Prior to Marico, Sanjay was working with PepsiCo where he started as Sales Director – Traditional Trade for India in 2009. He became the Market Unit General Manager (West) India, in 2010, and rose up the corporate ladder to his last position as Senior Director – GTM and Sales Capability at PepsiCo AMENA (Asia Middle East and North Africa) in 2013. In his role, he was responsible for delivering GTM transformation in key AMENA markets. Prior to PepsiCo, he was Vice President – Merchandising with Spencers Retail Limited in India in 2006, where he was instrumental in expanding Spencers' footprint. He also led the initiative of getting international retail food chain "Au Bon Pain", a Boston based Bakery Café Chain to India in tie-up with his company and led various new ventures. He started off his career with Dunlop India in 1995.

Sanjay did his Bachelor's degree in Science in 1992 from City College, Kolkata and completed his Business Management from Institute of Management Technology, Ghaziabad in 1995.

Bringing with him over 21 years of experience and has had a long association with Marico where he led and supported various sales leadership roles from 1997 to 2006.

## VIVEK KARVE

Director

Mr. Vivek Karve is a Chartered Accountant (1994), a Cost Accountant (1993) and a B. Com. from the University of Bombay (1991). He has more than 23 years of experience in Finance, Banking, and IT across four organizations - Marico, Siemens Information Systems, ICICI and P&G.

Vivek's current role as Chief Financial Officer of Marico covers Corporate Finance, Business Finance and Commercial for Marico Group. Vivek joined Marico in 2000, as a Manager in Corporate Finance. Over the years, he has contributed to various sections in Marico Finance, including business finance. He has played an active role in Marico's M&A efforts through due diligence, funding etc. He was also project lead for an initiative towards automating the performance forecasting and budgeting processes in the company. Vivek took over the charge as CFO of Marico Limited effective 1ST April 2014.

Vivek has served as a member of FICCI's (India) Corporate Finance Committee.

## NAVEEN PANDEY

Managing Director

Mr. Naveen Pandey holds the position of Managing Director of Marico Bangladesh Limited. Naveen brings with him an illustrious 17 years of experience with two heavy weights in the FMCG scene in India, namely PepsiCo and Asian Paints. He did his BBA in 1999 from University of Lucknow and completed his PGP in Management (MBA) from Indian Institute of Management, Indore in 2001. Naveen joins us from PepsiCo where he started his career as General Manager – Channel Development in 2008. He was later promoted as VP Sales (East India & Exports) where he drove disproportionate growth and ensured a step jump in distribution through Go-To Market transformation. His last assignment was Sales Director – North Market Unit, one of the largest and most profitable Market Units for PepsiCo India. Prior to this Naveen has had seven years of experience with Asian Paints across retail and institutional sales. In his various roles with Asian Paints, he has worked across East, North & West regions in India.

**KAZI AMIRUL HOQUE**

Director-Sales

Under Kazi Amirul Hoque's leadership, MBL is reinforcing its sales function and galvanizing momentum towards delivering on the strategic objectives of the function and company. He is responsible for Go To Market (GTM) transformation in line with the Company's Strategic Business Plan.

His previous role was Vice President, Head of Market Strategy and Planning at Robi Axiata Limited, where he was the Cluster Market Director. Prior to Robi, Amirul was the Customer Development Operations Manager (Head of Sales Operation) at Unilever Bangladesh Limited where he spearheaded the RTM, sales talents development, sales technology strategies formulations and implementations. At Unilever, he was also the Rural Business Development Manager, leading and driving the Alternative Route to Market Projects of the company.

Amirul holds a Masters degree in Economics from Jahangirnagar University. Amirul is an avid traveler and enjoys photography.

**SIDHARTHA DAS**

Director-Human Resources  
(Till 1st April, 2018)

Sidhartha joined us in February 2013 and since then has been incessantly working towards attraction and development of talent. He has also worked towards reinforcing the positive image of the organization in the society at large. He initiated Marico's CSR journey wherein Marico partnered with Dhaka Ahsania Mission.

Sidhartha has more than 18 years of varied sector experience starting from Project organizations, Pharmaceuticals, Power Generation and Fast Moving Consumer Goods and has worked in various capacities and roles. He joins us from Reckitt Benckiser (India) Limited where he was into a Business Partnering role for Sales and Marketing for the HR for India, Nepal and Bhutan.

He holds a Masters in Social Work and has pursued his Executive Diploma in HRM from XLRI, Jamshedpur in India.

He is an avid reader, enjoys adventure and is fanatic about his health and fitness.

**MD. NAZIM UDDIN**  
Director-Supply Chain

Nazim's primary role as Director - Supply Chain & Projects, is to lead the Supply Chain Team along with Projects under one SCM umbrella.

Nazim has been working in the field of Supply Chain Management for almost 18+ years in Pharmaceuticals & FMCG sectors. Over the period, Nazim has held various key positions in Manufacturing, EHS, Projects, Sourcing/Outsourcing and hence built himself as a Supply Chain Generalist. He was responsible for the implementation of many key projects during his tenure with Reckitt Benckiser in Bangladesh.

He has multiple interests, starting from music, sports and food and he continues to pursue each one of them.

**MD. SAIFUL ALAM**  
Director-Manufacturing

Saiful brings with him 18+ years of rich experience and currently Heads the Manufacturing Function in Marico Bangladesh Limited. He is responsible for Manufacturing, Project Implementation & Capability Building in Operations. He has been instrumental in leading the Manufacturing Team towards process excellence and has enhanced organization capability by optimizing Manufacturing Operations. It was under Saiful's Leadership that Marico set up its Crushing Facility and Refinery Plant in Bangladesh. Saiful has rich experience of working with global MNCs and had the opportunity of working in India during his association with Nestle, gaining experience of a different culture and society.

Saiful has completed his BSc in Chemical Engineering from BUET. He has keen interest in visiting and exploring new places and in sports.

**PRASHANT VERMA**  
Director-Marketing

Prashant joined Marico Bangladesh Limited last year in July and is responsible for driving a successful marketing function. Prashant comes with a rich experience of more than 15 years in Marketing as well as Sales, across multiple industries primarily FMCG, Banking and Media. Prior to joining Marico, Prashant was working as Chief Marketing Officer for VLCC Group in India, where he was managing marketing for all 3 group companies of VLCC. Prashant has spent a considerable part of his career with Unilever India, in multiple roles across sales and marketing. Prashant also has experience of running a FMCG startup, Vyome Biosciences, specializing in personal care products. He holds an MBA in Marketing & Finance from FORE School of Management, Delhi and also holds a Bachelor's degree in Chemistry from Delhi University. Prashant is a keen traveler, an avid reader and enjoys playing and watching sports like Basketball & Soccer.

**ELIAS AHMED**  
Chief Financial Officer

Elias Ahmed who is currently the CFO of the company, spearheads MBL Finance and is responsible to lead the Finance & IT functions and a key member of corporate branding for Marico Bangladesh Limited. He acts as an advisor to the Senior Management and the Board on the issues pertaining to the regulatory affairs & compliances as well.

Elias has more than 19 years' experience working in various multinational companies and in a local conglomerate. In his most recent role he was Finance Director in Coats Bangladesh Limited, a subsidiary of Coats Group plc, the number-1 sewing thread manufacturer in the world. Prior to that he worked as country CFO in Avery Dennison Bangladesh (a US based fortune 500 company of Avery Dennison Corporation). Prior to Avery Dennison, he worked in Bangladesh Edible Oil Limited, Standard Chartered Bank, Novartis Bangladesh Limited, Novartis Asia Pacific Regional Office in Singapore and in Beximco Pharmaceuticals Limited in various roles.

He is a fellow (FCMA) of the Institute of Cost & Management Accountants, Bangladesh, completed his MBA from University of Dhaka and also obtained Masters of Commerce (M.Com.) from Department of Finance from the University of Dhaka.

Elias is an active member of Trade, Tariff, Taxation & Company Affairs Sub-Committee of FICCI. He is a Donor member of Uttara Club Limited, Dhaka and a member of the Audit Sub-Committee of Uttara Club Limited and a permanent Member of Dhaka Boat Club.

**CHRISTABEL RANDOLPH**  
Head-Legal & Company Secretary

Christabel joined Marico Bangladesh Limited in May 2016 as Head of Legal and was subsequently appointed as the Company Secretary. She also anchors the Corporate Affairs agenda of the business including public affairs, corporate social responsibility and sustainability initiatives of the Company. Christabel is a qualified Advocate, with experience of practice before the District Courts and High Court Division of the Supreme Court of Bangladesh. She has varied experience in litigation, consulting on different areas of law & regulatory frameworks and litigation.

Christabel brings more than 11 years of experience of working with Corporates, Development Organizations and Law Firms. Her recent assignment, before joining Marico was with British American Tobacco Bangladesh (BATB). She has also worked with World Health Organization as their Legal Consultant and as Country Legal Consultant for International Development Law Organization (IDLO) and BRAC. Prior to her assignment with BATB, Christabel was an Associate at Dr. Kamal Hossain & Associates the premier law firm of the country. She is also on the Executive Committee of the School of Hope and is a member of IPAB and the Bangladesh Chapter of iProBono. Christabel is also an active member of the FMCG IPR Sub-Committee of FICCI.

She has keen interests in reading, music and loves travelling.

# Year in Review

## Our New Corporate Office

One of the major highlights and excitements for MBL was the move to “The Glasshouse”--a new, modern and chic Corporate Office at the heart of the commercial district of Gulshan Avenue, Gulshan-1. The new office space was designed not only to reflect the Marico values of openness and transparency but also to portray the culture and heritage of Bangladesh and the legacy of brands that have built MBL. The new Corporate Office has been a great energizer for MBL members and also has helped the organization occupy a space in the current commercial enclave reducing traveling time and man hours in commuting and coordination.

## DEVELOPMENTS IN SALES AND WINNING THROUGH CONSUMERS

The year in review was an exciting year for MBL with the Go-to-Market journey reaching new milestones and the team facing newer challenges in the market. During the year the volume growth of the business was driven by outstanding performance in VAHO segment. Within this segment Parachute Advanced Beliphool witnessed the highest growth on the back of impactful coverage in both retail and wholesale. The non-hair oil categories of MBL also saw unprecedented growth with Parachute Advanced Body Lotion and Saffola Active Blended Edible Oil leading the momentum.

MBL crafted some signature trade loyalty programs which have been critical to MBL's growth story in the last year. Of these the benchmark and exemplary execution in market place with Amar Dokan has been consistently working as growth hub of overall MBL portfolio. Beside this, yearlong wholesale loyalty program Milonmela also drove the growth story for MBL. MBL created vibrancy in the market through on-store branding and impact zones in the biggest wholesale markets.

The year also saw MBL exploring untapped business opportunities with wings to cater institutional FMCG product buyers, strong presence in E-commerce, exclusive distribution of Marico International products and multi-product sales drives with other reputed and complimentary FMCG brands.

After a successful year in 2017 the Go to Market arm of the business has continued to add value through outlet expansion as well as superior service to retailers with Marico's world class products. MBL optimized on distributor count to build bigger & bolder distribution partners. MIDAS PRO implementation across MBL operation and simultaneously Sales Performance Measurement System (SPMS) were key shifts in system & process improvement. MBL truly values its business partners which was evident from the Classroom training session on Effective Selling Technique, Product Knowledge, Ware House Management, and Effective Merchandising are key trainings covering 1700 of man days. Also, publications like Product Detailer to educate traders about Marico products has been rolled out nationally. Moreover, "Transformation to Digital Money Platform" & "Channel Financing for Distribution Partners" are collaboration between MBL and leading financial service providers to strengthen customer relationship and build strong foundations for the business.

## OUR WINNING BRANDS

### SET WET Gel New Packs

In December 2017, MBL launched the new attractive and stylish gel packs to cater to consumer preferences. Both the new variants, Casual Hold & Ultimate hold, with an additional 250ml sized new pack has already created a lot of excitement in the market and with consumers.

### Parachute Advansed Men's Hair Cream

MBL introduced the Parachute Advansed (PA) Men's brand to the market with the launch of its after-shower hair cream to increase foot hold in the male grooming space. The two variants of the PA Men's Hair Cream aimed consumers who are conscious about their hair nourishment without using any hair oil. The Classic variant with Cocolipid™ formula is for nourishment while Anti – Hairfall variant has the added benefit of almond to help contain hair fall. Both variants have received good response in the market already.

### Hair & Care Fruit Oils

Hair & Care fruit oils were launched in January 2018 primarily in the Dhaka and Chittagong Metro markets. The launch in January 2018 has already caught consumer attention with its youthful and contemporary non-sticky formulation perfect for today's active youth. The launch was accompanied by vibrant press and digital campaigns to further excite the consumers.

## HairCode Herbal Crème

HairCode, Marico's signature hair color brand, is well-known for its herbal goodness. In March 2018 Marico entered into the crème segment to bring yet another hair color offering to consumers and extend the category with the launch of HairCode Herbal Crème. The crème is enriched with superior conditioning for softer and smoother naturally black hair. The pack is specially designed for user convenience to relieve them from the hassle of measuring and engage powder hair color users in the convenient Crème format.

## New Campaigns

**Parachute Advansed Extra Care** is one of the leading hair fall control oils in Bangladesh. To address the consumer need of preventing hair fall MBL launched an attractive new 360 degree campaign which focuses on hair fall reduction in 45 days through regular usage of Parachute Advansed Extra Care. The campaign was well received by the consumers, leading to a significant improvement in overall brand image and consumer engagement through additional benefits compared to only Coconut Oil.

**Parachute Advansed Beliphool (PAB)** is the leading MBL brand in the Value added Hair Oil (VAHO) segment. PAB has experienced significant growth momentum with the continuation of the previous successful campaign, focusing on the benefit of thick and healthy hair through the goodness of coconut oil and methi. The new communication was rolled out across TV, press, radio, digital, outdoor and retail activation to bring the brand closer to consumers.

The year ended with Parachute being ranked No. 4 out of the top ten FMCG brands in the Country by the Kantar Milward Brown World Panel with an impressive 82% household penetration.

# Managing Director's Report and Management Discussion and Analysis

**Naveen Pandey**  
Managing Director

## Dear Shareholders,

It gives me great pleasure to inform you that we have had a successful year in 2017-18. The business has delivered profitable growth and I am happy to share with you an update on the overall performance of your Company during the year. Your Company, Marico Bangladesh Limited, has delivered 13% growth in revenue, and 14% growth in profit. The revenue growth has mainly been fuelled by robust volume growth in our Value Added Hair Oils (VAHO) portfolio which now contributes to 26% of our topline (up from 23% in FY17).

**14%**  
**PAT GROWTH**

Our Gross margin has seen a minor contraction of 0.5% owing to an abnormal increase (29% higher than FY 17) in the cost of COPRA. However our operating profit has increased by approximately 15% YOY, driven on the back of cost efficiencies, pricing and mix improvement. The

This performance would not have been possible without our people, our members who demonstrated the Marico values and help us in sustaining a challenging, enriching and fulfilling culture. It is this culture which empowered and enabled your Company's to deliver enduring results.

Company posted a Profit before Tax (PBT) of BDT 224 cr. which is 16.4% higher than FY 17 while our Profit After Tax (PAT) has increased by 14.1% compared to FY 17. We have sustained our market leadership with our flagship brand Parachute and also hold the second highest market share in the VAHO category.

This performance would not have been possible without our people, our members who demonstrated the Marico values and help us in sustaining a challenging, enriching and fulfilling culture. It is this culture which empowered and enabled your Company to deliver enduring results. We have taken definitive steps in creating an enabling environment to promote youth leadership with 50% of our members being millennials and 13% occupying mid to senior level management positions.

We have identified the strategic pillars that would propel the business on a sustainable long term growth trajectory that we are committed to deliver. Our priorities are growth of core categories, incubating innovation, stringent cost management, cutting edge go to market systems and an empowering talent value proposition.

Our endeavor is to build your Company as a responsible corporate, not only to drive sustainable business results but also to impact and inspire the society around us and maximize stakeholder value. We have also dialed up our efforts on engaging in meaningful dialogue with industry, regulatory and development stakeholders in effort to improve the socio-economic performance of our operations. We look forward to expanding our footprint in corporate social responsibility and partnering for progress with the government and non-government agencies to help achieve the sustainable development goals (SDGs) of Bangladesh.

## MANAGEMENT DISCUSSION AND ANALYSIS

The following management discussion & analysis (prepared in line with the requirements of Section 184 of the Companies Act, 1994, BSEC Notifications, Listing Regulations of Dhaka Stock Exchange and Chittagong Stock Exchange) covers financial results and other developments for the year ended March 31, 2018. Some statements in this discussion describing projections, estimates, expectations or outlook may be forward looking. Actual results may however differ materially from those stated on account of various factors such as change in macro-economic environment, regulatory changes, impact of competing products and pricing, demand and supply constraints of input materials.

## OVERVIEW OF THE CONSUMER PRODUCTS INDUSTRY

The Bangladesh economy has seen sustained growth over the last five years with a GDP growth of rate of 6%+ and the projected growth for 2018 is approx. 7%. Bangladesh is projected to be one of the top 3 fastest

growing economies by 2050. Consumer and investor confidence has been stable and with poverty being halved consumption as a % of total income has increased significantly in both rural and urban areas. Heavy rainfall and consecutive floods in Bangladesh during June-September 2017 left their footprints in terms of higher food prices, which leads to a higher overall inflation in FY 18 which currently stands at 6.1%. During the year we saw stable remittances and moderate export growth on back of which our foreign currency reserves have remained strong. Within the consumer products industry the food and beverage category along with personal care category are expected to grow at a delta rate on the back of increase in purchasing power and changing consumer demographics. Digitization and mobile financial services will allow for more transactions via cashless mediums with digital platforms being the immediate disruptor for the FMCG industry. The government has taken ambitious 'fast track' projects in energy and communications infrastructure though a number of projects are behind schedule. The Rohingya refugee crisis and major anti-terrorism drives also took up political focus during the year which impacted the socio-economic environment.

## OUR GROWTH STORY

FY18 has seen your company face many external challenges starting with floods, refugee crisis and other external challenges, however your company has been able to deliver a sustained performance across all quarters of the fiscal year. While the branded coconut oil category was de-growing the Marico portfolio has performed better than the market and hence gained share within the category. Accompanied with pricing taken in this portfolio your company has been able to drive a single digit revenue growth in this segment. Our VAHO portfolio experienced a robust volume growth of 32% driven by winning brands like Parachute Advansed Beliphool and Parachute Advansed Extra Care. The "Others"/non-hair oil portfolio has also seen positive robust growth derived on back of Parachute Advansed Body Lotion and Saffola Active Blended Edible Oil, on a full year basis, the "Others" category has delivered a volume growth of 10%.

## BRANDS

In FY18, we launched two new brands 'Parachute Advansed Men's Hair Cream' & 'Hair & Care Fruit Oils' to build our portfolio of winning brands which now has 17 brands. The launch of new variants and pack formats in the SET WET Gels was aimed at fortifying our offers in the male grooming category. We also launched a new crème format under our hair color category with HairCode Herbal Crème to respond to the changing consumer preferences. The initial responses for these new launches have been encouraging and we are working towards introducing more exciting propositions for our consumers.

**Coconut Oil Brand Parachute** has continued to be the market leader in the branded coconut oil space retaining the ever highest market share with highest FMCG reach nationally and a household penetration of 82%. **Parachute was also listed among the top-five Consumer Goods brands in Bangladesh by the Kantar Global Consumer Panel.** Despite the high market share the Company is committed to find more room for growth by driving the growth of the category in the country. We remain confident that Parachute will continue to dominate the market in the days

ahead through its consumer centric approach and overall operational excellence. FY18 ended with the coconut oil category delivering a 11% value growth compared to FY17.

**Value Added Hair Oil Brand - Parachute Advanced** continued to be lauded as one of the best brands in the country and was once again awarded as one the **Best Hair Oil Brand** by the Bangladesh Brand Forum in 2017 and was ranked within the top-ten brands of the country.

The overall **Value Added Hair Oil (VAHO) category** and brands have also yielded staggering growth for the Company with a 32% volume growth making MBL the clear No. 2 player in this category. The growth momentum was driven by disproportionate growth of **Parachute Advanced Beliphool (PAB)** as well as by **Parachute Advanced Extra Care (PAEC)** hair oils. Strong marketing plans which were based on sharp consumer insights have been instrumental in driving the success of these brands. MBL VAHO also gained significant market share during this year.

In FY 18, MBL's most prominent VAHO brand-**Parachute Advanced Beliphool** conducted a 360° campaign rolled out across TV, press, radio, digital, outdoor and retail activation focusing on the benefit of thick and healthy hair with the goodness of coconut and methi in a light non-sticky formula. This success of this program was reflected in the strong volume growth of PAB.

MBL continued its brand building drive for **Parachute Advanced Extra Care** which offers consumers hair-fall solutions. MBL conducted a 360° campaign focusing on hair fall reduction in 45 days through regular usage of Parachute Advanced Extra Care. The campaign was well received by the consumers, leading to a significant improvement in overall brand image and consumer engagement through

additional benefits compared to ordinary oil usage. The brand saw tremendous response when a limited edition of its new root-applier pack/format was launched which brought a first of its kind application convenience to consumers.

Marico introduced **Hair & Care Fruit Oils** in the last quarter of FY18, this brand has already caught consumer attention with its youthful and contemporary non-sticky formulation, which is perfect for today's active youth.

Category Contributions

Other brands in the VAHO category also saw good response from consumers with attractive cross-branding consumer offers with **Nihar Shanti Amla** and the clinically proven efficacy of **Parachute Advanced Ayurvedic Gold**. The effective consumer proposition as well as presence in press, traditional and digital media ensured that our brands continue to drive new trials while retaining existing consumers, which contributed to steady gains in the overall volume and value growth of this category.

MBL expanded further into the **Colors Category** with the launch of the new **crème format of HairCode Herbal Crème** in the last quarter of FY18. As the market leader in

the powder hair color categories this new product development (NPD) was a natural extension of the portfolio to cater to the changing landscape of consumer preference. The offering of superior conditioning and herbal goodness was able to garner a lot of excitement with the trade as well initial set of consumers.

MBL continued with its NPD journey in FY18 to cater to a wider range of consumers with a more diversified portfolio of successful brands.

Male grooming segment continues to grow steadily with the Perfume & Deodorant category delivering a

10% volume growth in FY18. **Set Wet Deodorants** continued to excite the consumers with its colorful packs and consumer offers. The brand also saw enthusiastic response from consumers with its Valentine's Day digital activation.

New variants and packs were launched in Q3 FY18 for **Set Wet's Hair Gels** to further expand the range of offerings in the current portfolio in response to insights on consumer needs for today's young male demographic.

**Parachute Advanced Body Lotion** continued to grow in a highly penetrated and competitive body lotion segment. The brand continued to build its presence through press and digital activation while introducing more variants and expanding its range through consumer offers. The targeted and effective brand building activities saw the brand deliver exponential growth as compared to FY 17.

MBL continued to build its presence in the **Food Category** by driving consumption and awareness of **Saffola Active** which is the only blended edible oil in the Bangladesh market. Riding on the back of the traction garnered in FY17 the foods portfolio delivered a 50%+ volume growth which is indicative of the success of our brand and product proposition as well as the growing segment of health conscious consumers.

### DISTRIBUTION & GTM

Distribution and a sharp Go-to-Market (GTM) strategy have been the building blocks of MBL that would not only drive sales but also support the range offerings of MBL brands. **Amar Dokan** our signature trade loyalty program reflects execution excellence. **Milonmela** our wholesale loyalty program supports the MBL growth

story in indirect distribution channels. With the deployment of MIDAS Pro and SPMS we are building capability not just within the organization but are also building capability of our partners through various classroom trainings and customized literature for trade education. In FY18 we conducted covering 1700 of man days training for our business partners. This commitment to developing capability ahead of growth is a reflection of our commitment to establish best-in-class distribution and GTM operations as well as contribute to a broader capability agenda and sustainable business operations. We continue to drive penetration with FY18 seeing the addition of more than 25K outlets with a BDT 7 cr. Value addition to the business. MBL's products reach more than half of the retail universe across Bangladesh. Our flagship brand **Parachute** has a wholesale reach of 99%. We are exploring new channels in the form of institutional sales and strategic co-branding or tie-ups along with strengthening our presence in the growing e-commerce channels. We are continuing to adopt learnings from our parent Company in India to leverage our strong distribution network and quickly scale up its new product introductions in Bangladesh.

### OPERATIONS

MBL has a relentless focus on cost-efficiencies and supply assurance. In FY18 MBL drove home the motto 'every taka counts' across the organization without compromising on supply assurance and delivering innovations. Our signature savings initiative, 'MarVal' along with a new initiative 'Edge' has contributed to reduction in overheads compared to FY17 and has also helped derive higher effectiveness in our consumer and trade investments. We are reinvesting these savings to build our brands and also strengthen our foundations in innovation, IT transformations and business analytics. In FY18 we implemented business process transformation in our supply chain function with the introduction of 'Order Management' taking customer service to the next level and impacting key operational parameters like range selling and dispatch efficiencies. Our manufacturing operations doubled its capacity in the filling unit while our crushing unit was able to run crushing and refining operations simultaneously. To support the business demands our Shirirchala plant also achieved a mile stone of crushing 3000+ ton Copra in a single month. We have the highest commitment to 'Safety' and 'Quality' in our operations ensuring that our signature initiatives like Safety Starts with You and Quality Week are observed with rigour across all our plants and installations.

In the year under review, we saw considerable volatility in the external business environment with floods and food inflation, high levels of NPLs and rise in imports seeing a decline in Forex reserves hindered projections. Overall the macro situation in the country has been favorable.

## Financial Results

The cost structure is given below for better appreciation of the financials:

BDT Crore	FY 2018	FY 2017	Gr FY18
Revenue	781	692	13.0%

The section on Financial Statements includes more details of our financial results.

## Shareholder Value

Your Company's dividend distribution practice is aimed at sharing its prosperity with its shareholders subject to maintaining an adequate chest for liquidity and growth. Your Company's dividend payout compared to FY 17 is as follows:

	Q1	Q2	Q3	Q4	TOTAL
FY 17	150%	300%		50%	500%
FY 18		250%	250%	100%	600%

Subject to your Company's fund requirements towards inorganic growth, working capital and innovations and capacity creation we shall endeavor to maintain a healthy dividend payout practice in the medium term.

## HUMAN RESOURCES

Talent and culture continue to be key focus areas for MBL to achieve its business aspirations and make a difference to the lives of its 213 members. Challenge, Enrich and Fulfill—Marico's talent value proposition is steered by the Human Resources (HR) function which is focused on competency based capability development, automation of people processes, strengthening of company culture and nurturing careers. The function took multiple initiatives this year to achieve their objectives and support the business, key highlights of which are outlined below:

### Culture Building

Marico believes that its Values are the underlying drivers of its culture as well as business performance. The signature culture building initiatives—Values Week, Member Engagement Survey were celebrated across the

organization to educate and embed Marico's core cultural philosophies and to encourage members to live the Marico Values.

### Marico Competency Framework

Building depth of talent is a strategic thrust area to build capability for the business. To aid this process the Company articulated functional and behavioral competency frameworks considering the Company's current and emerging business requirements.

### Talent Development

Our Talent Value Proposition (TVP) enables members to maximize their true potential to 'Make a Difference' and is an anchor for talent acquisition and development processes. Being an organization with limited hierarchy allows MBL to give greater focus on nurturing and developing talent through of our reputed programs which are:

Management Trainee Program: The Management Trainee (MT) Program is an intense program structured to give

fresh talent joining the Company a comprehensive understanding of the business and to give them early exposure to leadership behavior. Running over a period of 12 months, it is one of the most comprehensive and well-planned training programs across the industry.

**Sales Trainee Program:** The Sales trainees are recruited from notable institutions after months of rigorous scouting and recruitment process. The Sales Trainee Program is structured to give fresh talent joining the Company an in-depth understanding of FMCG sales and operations, shaping up these fresh trainees into skilled sales professionals who would support the distribution and GTM wing of MBL business with the ultimate objective of developing future sales leadership.

**Performance Management System:** Management by Results (MBR) is our signature performance management process and unique in the industry in Bangladesh. Developed by the founder Harsh Mariwala himself in the early years of MBL's parent company it's a uniform performance management process that aligns individual and team goals with the organizational thrust areas.

**Personal Development:** Personal Development Planning (PDP) is a career development process, distinct from performance management process. It provides a platform to members to discuss their career aspirations, identify their strengths and development areas and work towards enhancing individual competence and helping them optimize on their personal and professional aspirations. This process is key to designing the career architecture and building the talent pipeline in the organization.

**Leadership Development:** We invest in leadership development at front line, middle and senior leadership levels through cross-country exposures, job rotation, classroom training, mentoring and coaching. MBL invests in exposing its members to external programs that would benefit their leadership development processes most notably the Relationship Management Program (RMP) which is a unique behavioural/experiential learning program for identified talent progressing in the management journeys.

### Member Welfare

The HR function designed the Hardship Geography Amenity Leave, an innovative Benefits scheme for Sales Members working out of the identified remote "Hardship" geographies of the country. Under this unique concept the Company provides mandatory leave to the recipients every month and a fully paid to-fro trip to their hometown. This signature member experience has touched the lives of the families of the recipient members and significantly built member engagement and loyalty with the Marico Family.

### Sales Hall of Fame

This is a recognition platform designed specifically to recognize Superlative performances and celebrate

achievements under "TM of the Month" and "Platinum Achiever's Club" Awards. This initiative has boosted the meritocratic culture within the Sales Frontline and has encouraged the strive for excellence and achievement orientation within the team.

### Code of Conduct (CoC)

The CoC is set of guidelines highlighting the desired behavior/actions from our members to display highest levels of integrity. The CoC embodies a uniform commitment of member companies of the Marico Group

to create an enabling environment for members free from harassment & discrimination and to conduct our business in an ethical manner with high levels of governance to deliver sustainable shareholder value.

As an annual process this year too we had 100% of our member refresh their knowledge on Code of Conduct through an online certification course by iLearn. All our members successfully achieved the honor by passing through a rigorous online test.

There is a strict whistleblowing and redressal process which ensures that desired behavior and integrity is ensured at all levels of the organization.

### Outlook for FMCG Industry

Global forecasts predict that emerging markets will continue to provide the fastest growth opportunity with the rising GDPs and increased purchasing power. A growing middle-class and millennial population will dictate consumer preferences and shifts in product offerings and market behavior. The upcoming year will be a challenging one with the National Elections being scheduled which has historically been disruptive. Despite this there is projected growth of ~6% in the FMCG industry with value addition being the key differentiating factor in achieving above average growth.

### Risks & Concerns

The Company is cognizant of external risks that are likely to impact the business especially those systemic risks that are beyond the reasonable control of the business. Proactive management of these risks is of fundamental significance to ensure our business growth. Over the years, we have put in place a strong framework through which we regularly identify and assess risks and take necessary measures to minimize their impact.

### **Input Risk**

Raw materials, particularly copra, comprise bulk of our production costs. In FY18 hike in Copra prices have impacted projected margins. This volatility is a present risk for the business. However given the high equity of our brands price adjustments allow the business to address these uncertainties. Additionally we continue to invest in and seek out numerous alternatives for our sourcing needs and hedge against these fluctuations.

### **Exchange Rate risk**

Exchange rate risk still relates to the core business of MNCs, since we import a significant portion of our raw materials from international locations in foreign currency (mostly US dollar and Indian Rupee) though our cash inflow is not directly affected since our products are sold only in the domestic market. We have heightened our drive towards localized production and local sourcing of raw materials to insulate against this risk. Consistent forecasting of exchange rate movement and position building on our import volume through optimum exchange rate dynamics is also key in minimizing our exchange rate risks. The business by large is insulated of the risk except for Copra and Liquid Petroleum based materials.

### **Competition Risk**

Barriers to entry in the FMCG industry of Bangladesh still remain low. Increase in the number of competing brands in our core categories as well as our foray in to well penetrated categories mean competition behaviour has the potential to disrupt our business. The Company believes healthy competition is good for business and welcomes offerings of high-quality products. However the biggest competition risk facing the FMCG industry is a growing prevalence of counterfeit, lookalike and grey products (those that are imported illegally or duty evaded). We have undertaken concrete efforts to fight the presence of counterfeit through a specialized focus of our legal function who coordinate with law enforcement and regulatory bodies to drive out fake, look-alike items from the market.

### **Changing Consumer Preferences**

Demand can be adversely affected by a shift in consumer preferences. Given the explosion and ever growing popularity of social media, the speed of such a shift could be very swift. Marico invests significantly in consumer insights to identify early trends and exercise agility in adapting to shifting preferences.

### **Compliance**

Inadequate compliance systems and processes can pose both a reputation and financial risk for an organisation. Marico has invested in reviewing and updating compliance systems and processes to ensure that all its functions and

units are aware of the laws and regulations to comply with, and that adequate monitoring mechanism are put in place to ensure compliance.

### **Risk Management**

Risk Management is an integral and important component of Corporate Governance. We believe that robust risk management ensures adequate controls and monitoring mechanisms for a smooth and efficient running of the business. The risk management framework is aligned across the member companies of Marico group to ensure that there is a consistent approach in identification, mitigation and neutralization of risks. The key cornerstones of this uniform Risk Management Framework are:

- Periodic assessment and prioritization of risks that affect the business;
- Development and deployment of risk mitigation plans to reduce the vulnerability to prioritized risks;
- Focus on both the results and efforts required to mitigate the risks;
- Risk review as part of the monthly operations review and risk reporting at senior management and Board levels;
- Embedding of the Risk Management processes, legal and regulatory due diligence in significant decisions such as large capital expenditures, mergers, acquisitions and corporate restructuring;
- Strict adherence to the Internal Financial Control (IFC) framework;

### **INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY**

Marico has a well-established and comprehensive internal control structure to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition, that transactions are authorized, recorded and reported correctly and that operations are conducted in an efficient and cost effective manner. The key constituents of the internal control system are:

- Establishment and periodic review of business plans
- Identification of key risks and opportunities and regular reviews by top management and the Board of Directors
- Policies on operational and strategic risk management
- Clear and well-defined organization structure and limits of financial authority
- Continuous identification of areas requiring strengthening of internal controls

- Operating procedures to ensure effectiveness of business processes
- Systems of monitoring compliance with statutory regulations
- Well-defined principles and procedures of evaluation of new business expenditure
- A robust management information system
- A robust internal audit and review system

Ernst & Young LLP has been carrying out internal audits for Marico for the last four years. In addition, local firm such as M/s Hoda Vasi Chowdhury, Al-Muqtadir Associates, Snehashish Mahmud & Co. performed different audits throughout the year. The work of internal auditors is coordinated by an internal team at Marico Bangladesh. This combination of MBL's internal team and expertise of professional firm ensures independence as well as effective value addition.

Internal audits are undertaken on a continuous basis, covering various areas across the value chain like manufacturing, operations, sales and distribution, marketing and finance. The internal audit program is reviewed by the Audit Committee at the beginning of the year to ensure that the coverage of the areas is adequate. Reports of the internal auditors are regularly reviewed by the management and corrective action is initiated to strengthen the Controls and enhance the effectiveness of the existing systems. Summaries of the reports are presented to the Audit Committee of the Board.

The statutory auditors, Hoda Vasi Chowdhury & Co., as part of their audit process, carry out a systems and process audit to ensure that the ERP and other IT systems used for transaction processing have adequate internal controls embedded to ensure preventive and detective controls. The audit report is reviewed by the management for corrective actions and the same is also presented to and reviewed by the Audit Committee of the Board.

Over and above the existing Internal Control processes, the functioning of a robust Internal Financial Control (IFC) Framework developed with KPMG aims to identify key Financial Risk and develop Controls in all business processes ranging from policies & governance to process design, execution and compliance monitoring. IFC ensures - Accuracy & completeness of accounting records - Orderly & efficient conduct of business, including adherence to policies - Safeguarding of its assets - Prevention & detection of Frauds. For Listed companies, IFC framework ensures operating effectiveness of controls. The management believes that strengthening IFC is a continuous process and therefore it will continue its efforts to make the controls smarter with focus on preventive and automated controls as opposed to mitigating and manual controls.

## Business Outlook

We have come back to a growth trajectory with the growth being delivered across most of our brands. The Company is committed to systematically invest to strengthen both brands and capability and will continue to progress with new product introduction and business process transformation. Company is looking to expand the size of the non-Coconut oil portfolio to ~35%+ of the business by 2020 and gain market leadership in the VAHO category. We will be vigilant in tapping new channels of growth by ensuring our footprint expansion in the retail universe as well as in newer channels and selling platforms. We will continue to strengthen our strategic pillars of innovation, GTM transformation, talent value proposition, IT& Analytics and value management while retaining our focus on high standards of governance and risk management.

Overall, we expect to deliver double digit topline growth in the near to medium term. We are also committed to step-up our contribution in the areas of social responsibility and sustainability in our operations.

**Naveen Pandey**  
Managing Director

# Our Share

## Marico's Scrip performance

Our share held its positive momentum throughout FY 2017-18. MBL share price witnessed mild growth in September 17. Since then, the share price has been stable throughout FY18. This reflects the market's confidence in positioning our brand and the stable performance in the consumer goods industry. During FY18 our shareholders continued to attain healthy quarterly dividends. Total dividend payout in FY18 was 600% surpassing the previous year by 100%.

# Report on Corporate Governance

Marico Bangladesh is committed to ensuring the highest levels of corporate governance at all times. Transparency and Openness is one of the eight core Marico values and is embedded in the ethos of the organization. This report presents the Company's corporate governance framework and the structures and processes that work to ensure a continued commitment to sound governance.

The Company's philosophy on corporate governance is aligned across the Group with the basic belief that a company which is proactively compliant with the law and which adds value to itself through corporate governance initiatives would also command a higher value in the eyes of present and prospective shareholders. Marico therefore believes that Corporate Governance is not an end in itself but is a catalyst in the process towards maximization of shareholder value. Corporate governance is also about what the Board of Directors does and how it sets the values of the Company and it is to be distinguished from the day to day operational engagement of the Company by full-time executives. The responsibilities of your Board thus include setting the Company's strategic aims, providing the leadership to put them into effect, supervising the management of the Company and reporting to shareholders on their stewardship. Together, the Management and the Board ensure that the Company remains a company of uncompromised integrity and excellence.

Shareholder value as an objective is embedded into all aspects of corporate governance. Our Corporate Governance is therefore a set of principles which ensures we are governed in the best interest of all the stakeholders—the shareholders, society, employees and the government.

Your Company would continue to develop robust practices to ensure highest standards of governance.

## Corporate Governance Framework

The Company's Corporate Governance Framework aims to deliver management effectiveness, reduction in risk and promotion of best corporate culture. Dedicated towards standing true to the highest level of integrity and exemplifying the highest standard of business conduct, good Corporate Governance is the underlying force for the Company, driving sustainable and responsible business operations with transparency, accountability and compliance.

The legal and regulatory basis underlying this framework are the Companies Act 1994, the Listing Regulations of the Dhaka and Chittagong Stock Exchanges, the Bangladesh Securities and Exchange Commission (BSEC) Notification on Corporate Governance and other applicable laws of the land. Apart from this, there is a robust set of internal controls, risk management processes and Code of Conduct further strengthening the Company's corporate governance.

The parties having critical roles in the overall governance programs and contributing to the process of Corporate Governance are:

- The Board of Directors: responsible for oversight and directions;
- Executive Management: responsible for driving governance and risk management practices and;
- The business units and supporting functions: where the risk activities occur and ownership lies.

### Structure of Marico Bangladesh's Corporate Governance:

## Board Composition

Marico's philosophy to have constructive separation of the Management of the Company from its Owners manifests itself in the composition of the Board of Directors which comprises 7 (seven) directors in the following classes:

- 3 Independent Directors;
- 3 Non-Executive Nominee Directors and;
- 1 professional being the Managing Director.

The Board selects its members and leaders via an inclusive and thoughtful process, aligned with Company strategy. The Board has in-depth knowledge, skills and vast experience in the context relevant to the Company. The Independent Directors ensure protection of interests of all shareholders of the Company. The Directors' Report along with their profiles have been presented in this Annual Report.

## Responsibilities of the Board

The Board establishes structures and processes to fulfill Board responsibilities that consider the interests of investors, regulators, management and employees among others. The major responsibilities of the Board are as follows:

- Oversee Management and Set Goals and Direction
- Evaluate Strategy and Review Management Performance
- Review Management Succession Planning
- Monitor and Manage Potential Conflicts of Interest
- Ensure the Integrity of Financial Information
- Monitor the Effectiveness of Board Governance Practices
- Ensure compliance to laws and regulations
- Ensure Adherence to Company Policies and Guidelines
- Perform Risk Assessment and Ensure integrity of Company's Financial Reporting

## Committee(s)

The Board currently has one sub-committee which is the Audit Committee and has delegated responsibilities to the Committee to assist the Board in ensuring that the financial statements reflect true and fair view of the state of affairs of the Company and implement transparency with its monitoring system. The duties and responsibilities of the Committee are clearly defined by the Board. The Committee therefore strictly adheres to a set of terms of reference approved by the Board.

## Board Audit Committee

The Audit Committee is constituted according to the conditions of the BSEC guidelines. The Committee comprises 3 Non-Executive Independent Directors and 2 Non-Executive Nominee Directors and 1 Executive Director.

The Chairman of the Committee is an Independent Director and the said appointment in accordance with the BSEC Guidelines. All members of the Audit Committee are 'financially literate' as per regulatory requirement and are able to analyze and interpret financial statements to effectively discharge their duties and responsibilities as members of the Committee. The Chief Financial Officer and Company Secretary attend all meetings of the Committee and Internal Auditors of the Company and representatives of External Auditors attend the meetings upon invitation. The key responsibilities of the Committee are elaborated in the Audit Committee Report which is presented in this Annual Report. Additionally the Committee also ensures adherence to the Secretarial Standards issued by the Institute of Chartered Secretaries of Bangladesh.

The Company Secretary acts as the Secretary to the Committee drives corporate compliance and ensures effective functioning of the Board and Committee by organizing and attending all Board and Committee meetings.

## The Management Team

The senior management plays a significant role in managing the business as per the norms of corporate governance, the Company's Code of Conduct and ensures that adequate internal controls are in place and supported through a strong internal control framework. The implementation of the Board's plans, responsibilities and duties is carried out by the management team lead by the Managing Director. The management team comprises of the following members:

Managing Director

Chief Financial Officer

Director-Human Resources

Director-Supply Chain

Director-Manufacturing

Director-Marketing

Director-Sales

Head-Legal & Company Secretary

The management team reports to the Board and has the responsibility of implementing the policies and decisions of the Board, overseeing the day to day business operations as well as developing, coordinating and implementing business and corporate strategies.

## Board and Committee Meetings

The composition & meeting of the Board and Committee of the Board are stated in the Director's Report and Audit Committee Report, respectively.

## Our Corporate Responsibility Principles

- Commitment to conduct business in an honest, ethical and lawful manner. The Code of Conduct guides ethical decisions for all members of the Board which dictates our ethical behavior and manifests our value system that promotes business transparency and builds shareholder trust.
- Commitment to protect the health and safety of our members, the environment, and our communities.

## Internal Audit

The Company's internal audit function has the responsibility for independently assessing the adequacy and effectiveness of the internal control over financial reporting based on the framework and criteria established in internal control-integrated framework and the management of significant risk areas.

A Management Report on Internal Control over Financial Reporting has been attached as Annexure-I to this Corporate Governance Report.

- Commitment to providing a workplace where all employees can fulfill their potential based on merit and ability.
- Endeavors to conduct business in a fair and open manner, strictly adhering laws, regulations and rules that govern us.
- Support for sustainable development and commitment to constantly improve our operations to the benefit of our shareholders, employees, consumers and the society.
- Create value for our stakeholders while continually improving our performance as a good corporate citizen with active engagement in CSR activities.
- Consideration of all aspects of an operation or new project – including social, environmental, and post-closure issues – when making our investment decisions.
- Intent to maximize economic opportunities for local communities from our existing operations and new projects.

## Commitments

The Company started its operation in the country about 19 years ago, and within this time the Company has achieved significant milestones and established itself as significant player in the consumer packaged goods industry of Bangladesh. The Company has expanded remarkably through its flagship brand, Parachute. Over the years, the Company has successfully created a diversified portfolio by foraying into Skin Care, Male Grooming and Food categories. The Value Added Hair Oils (VAHO) category has already emerged as a second growth engine for the

business while the Company continues to push ahead on business process transformation and strengthening its strategic pillars.

The Company is not only focused on strengthening business performance but also to grow even stronger, more compliant and more competent. The Company's strength in corporate governance has resulted in Marico becoming a respected and credible business entity in the country with a strong corporate image and *Parachute* being one of the most trusted brands by consumers. The Company is listed on both the Dhaka and Chittagong Stock Exchanges. The share performance demonstrates public and investor confidence in the Company's long record of steady earnings which is testament to its good corporate governance.

There is high degree of transparency in the Governance framework, fueled by the presence of Independent Directors. Almost half of the Company's Board comprises of Independent Directors, who have deep involvement in ensuring integrity of Financial Information & Reporting, full and open disclosures and the necessary checks and balances between the Board and Management of the Company. The Independent Directors provide an external and dispassionate insight on the ways of work of the Company and provide valuable guidance to the business. We are committed and dedicated to further strengthening our corporate governance and to continually add value to all the stakeholders of the Company.

## External/Statutory Auditors

M/s. Hoda Vasi Chowdhury & Co. is the statutory auditor and have no involvement with any other services of the Company.

## Reporting and Compliance of Corporate Governance

The Company has obtained a certificate from a Practicing Chartered Secretary, Al-Muqtadir Associates, who has considered the Company's relevant statutory compliance. A copy of the said certificate has been included in this Annual Report.

The status of compliance with BSEC's Notification no. SEC/CMRRCD/2006-158/134/Admin/44 dated 7th August, 2012 is captured in the checklist appended as Annexure - II to this Report.

On behalf of the Board,

**Naveen Pandey**  
Managing Director

# Annexure to the Corporate Governance Report

## Annexure: I

### Management's Report on Internal Control over Financial Reporting

The Company's Management is entrusted with the responsibility to establish and maintain adequate internal controls over financial reporting of the Company. The Audit Committee of the Company has established a robust framework to evaluate the effectiveness of the Internal Control over Financial Reporting ("Integrated Framework"). The Management with the Chief Financial Officer and Head of Internal Audit conducted an evaluation as per the Integrated Framework and concluded that the internal controls over financial reporting was effective as of March 31, 2018. M/S. Hoda Vasi Chowdhury & Co., Chartered Accountants, the Statutory Auditors of the Company enlisted with the Institute of Chartered Accountants of Bangladesh (ICAB), has issued an audit report on the financial statements of the Company.

### Means of Communication

Quarterly, Half-Yearly and Annual Financial Results of Marico Bangladesh Limited and other price sensitive information are published in two daily newspapers-in English and Bengali and on one online newspaper as per the Directive of the Bangladesh Securities and Exchange Commission. The Company on a quarterly basis circulates analyst notes to investors and to the stock exchanges. The financial results and price sensitive information are communicated by the Company through its corporate website - [www.marico.com/bangladesh](http://www.marico.com/bangladesh). The Management Discussion and Analysis forms part of the Annual Report.

# Audit Committee Report

The Audit Committee is a sub-committee of the Board which is appointed by and responsible to the Board of Directors of Marico Bangladesh Limited (MBL) according to the conditions of the Bangladesh Securities and Exchange Commission (BSEC) Guidelines on corporate governance. This report is presented in accordance with Condition No. 3.5 of the BSEC Guidelines which sets out the role of the Audit Committee and the functions carried out during the year under review.

The Audit Committee is a central pillar of effective corporate governance and fulfills its oversight responsibilities mandated by law and governance best practices. The Audit committee plays a critical role in enhancing audit quality, assurance in the integrity of financial reporting and creating an environment that promotes transparency. The Committee's primary purpose is to provide independent oversight of the Company's financial reporting, non-financial corporate disclosures, business risks, internal control systems and compliance. It assists management with driving internal controls to eliminate or mitigate business risks, ensuring high standards of behavior and conducting the business in a financially sound manner. The Audit Committee of MBL met four times last year. During the year under review, all the recommendations made by the Audit Committee were accepted by the Board.

## Composition and Meetings

The Committee presently comprises of 6 members, of whom 5 are non-executive directors and 3 are Independent Directors. The Chairman of the Committee is appointed by the Board of Directors and is a non-executive independent director. The Company Secretary functions as the Secretary of the Committee. Meetings of the Committee are attended by the Chief Financial Officer, Head of Internal Audit and the External Auditors on invitation. All members of the Committee are financially literate and able to interpret financial statements and assess the adequacy of the internal control processes.

\*Mr. Ashraful Hadi and Mr. Naveen Pandey were inducted as Members of the Audit Committee on October 18, 2016

## Responsibilities and Duties

### Financial Reporting

- To review the quarterly, half-yearly and annual financial statements of the Company along with management representatives, focusing particularly on any significant changes to accounting policies and practices before submission to the Board for approval, reviewing announcements relating to the Company's financial performance and compliance with applicable financial reporting standards and other legal and regulatory requirements;

### Related Party Transactions

- To review any related party transactions and conflict of interest situations that may arise within the

Company including those under the Company's Code of Conduct.

### Audit Reports

- To prepare the annual Audit Committee report and submit to the Board which includes summary of its activities and review the Board's statements on compliance with the BSEC Codes of Corporate Governance for inclusion in the Annual Report.
- To review the Audit Committee Charter and make necessary revisions for the year. The Committee should determine that all responsibilities outlined in the charter have been carried out. In addition, the charter is reviewed, and proposed updates presented to the Board for approval. As adherence to best

practices, evaluation of committee activities is carried out which is a key tool in achieving and maintaining a high degree of effectiveness.

### Internal Control

- To evaluate the Company's internal financial controls and risk management framework and review whether management is adhering to the appropriate compliance culture by communicating the importance of internal control and risk management to ensure that all members have clear understanding of their respective roles and responsibilities.
- To consider whether internal control strategies recommended by internal and external auditors have been implemented in a timely manner by the management thereby ensuring that the system of internal control is soundly embedded, effectively administered and regularly monitored.
- To recommend to the Board steps to improve the system of internal control derived by the Committee from the findings of the internal and external auditors.
- To review the extent of unit compliance including with internal policies, standards and procedures and the Company's Code of Conduct.
- Review the arrangements made by the management for developing and maintaining a suitable and robust Management Information System (MIS).

### Internal Audit

- To monitor and review the effectiveness of the Company's internal audit function and to be satisfied that Internal Audit has the competency and qualifications to complete its mandates and approved audit plans
- To monitor and evaluate whether the audit functions are conducted independently from the management. Ensure that Internal Auditors have open access to all activities, records, property and personnel necessary to perform its duties.
- Review and assess the annual internal audit plan and evaluate its consistency with the Risk Management Framework used.
- Review that findings and recommendations made by the Internal Auditors and ensure that appropriate action is being taken to implement the audit recommendations including ensuring that appropriate tracking is maintained on the agreed audit action points.
- Recommend any broader reviews deemed necessary as a consequence of the issues or concerns identified and raise/ensure special audit where necessary.

### External Audit

- Make recommendations to the Board for it to place before the Shareholders for their approval in the General meeting in relation to the appointment of the external auditor and to approve the remuneration and terms of engagement.
- Appraise the external auditor's audit plan, nature and scope of the audit plan, audit report and evaluation of internal controls.
- Oversee the relationship with the external auditors including:
  - Assessing their independence and objectivity taking into account relevant professional and regulatory requirements and assisting them in preserving their independence;
  - Develop and implement policy on the engagement of the external auditor to supply non-audit services
- Review the external auditor's Statement on Risk Management and Internal Control of the Company for inclusion in the Annual Report.
- Review the external auditor's findings and recommendations arising from audits, in order to ensure that appropriate action is being taken.

### Major activities during the year

The Audit Committee carried out its functions in accordance with the "Audit Committee Charter", governed by the BSEC notification on Corporate Governance, in key areas of the annual financial reporting cycle.

During the year ended on 31st March, 2018, the Audit Committee carried out the following activities:

- Reviewed the quarterly, half yearly and annual financial statements of the Company, considered the financial and business performance of the Company and the relevant announcements to the Securities & Exchange Commission, Stock Exchanges by the Board of Directors.
- Ensured that the preparation, presentation and submission of financial statements have been made in accordance with the prevailing laws, standards and regulations by assessing the external auditors report on all critical accounting policies, significant judgment and practices used by the Company in producing the financial statements.
- Enhanced good practices in financial reporting and risk management and reviewed related party transactions for foreign remittance
- Reviewed the annual audit plans and effectiveness of the audit process and the Internal Audit reports

which encompassed the audit issues, audit recommendations and Management's responses to these recommendations.

- Discussed with management about the improvement actions in the area of internal controls, systems and efficiency enhancements including the implementation of the Internal Financial Control Framework
- Reviewed the external auditors' findings of observation, areas of concern highlighted and the management's response thereto and ensured that the external auditors remain independent and that appropriate action is being taken on time.
- Appraised the performance of the external auditors and made recommendation to the Board on their appointment and fees.
- Reviewed the Investments of the Company i.e FDR, CAPEX etc. and revised Investment policy of the Company
- Reviewed the contingent liability status of the Company and provisions against the same
- Reviewed the status of the Business Transformation Projects for FY18

- Reviewed the functioning of the Code of Conduct through a quarterly tracking and reporting mechanism implemented for this purpose
- Approved Appointments/Substitutions to the Board of Trustees of the Marico Bangladesh Workers' Profit Participation Fund
- Reviewed other matters & incidents of significance as per Audit Committee Charter and management reporting

The Committee is of the opinion that adequate controls, procedures and risk management systems are in place to provide reasonable assurance that the Company's assets are safeguarded and that the financial position of the Company is satisfactorily managed.

The minutes of the Audit Committee meetings are placed subsequently to the Board for approval on regular basis which contains all issues along with various suggestions and recommendations to the Management and the Board.

On behalf of the Audit Committee,

**Masud Khan**  
Chairman, Audit Committee

# Directors' Report

## A message to our Members

With the financial year ending on March 31, 2018 ('the year under review' or 'FY18'), Your Board of Directors ('Board') is proud to present the 8th Annual Report of Marico Bangladesh Limited after being listed on the Dhaka and Chittagong stock exchanges.

Your Company is presenting this Directors' Report in compliance with the requirements of Section 184 of the Companies Act 1994, the Listing Regulations and Bangladesh Securities & Exchange Commission Order No. SEC/CMRRCD/2006-158/134/Admin/44 dated 7th August 2012. The key financial results and other developments taking place during April 2017 – March 2018 in the business in Bangladesh is discussed in this report.

## Review of Operations

Your Company witnessed a successful year with steady progress in many areas despite challenging macro-economic conditions and delivered value enhancement. Manufacturing and marketing of fast-moving-consumer-goods (FMCG) in the personal care and food categories continue to remain the prime business activities of Marico Bangladesh Limited. The Company is the manufacturer and marketer of renowned brands such as Parachute, Parachute Advanced, Nihar, HairCode, Saffola, Mediker and Set Wet. Your company now hosts 17 brands and 51 SKUs in the market. Your Company continued to deliver growth in the Coconut oil and value-added-hair-oils (VAHO) categories where the brands Parachute and Parachute Advanced Beliphool are ranked No. 1 and 2 respectively. Your Company also delivered a value growth of 9% compared to last year. The detailed results of the operations are discussed in the segment below.

## Expansion of Your Company's Portfolio

During FY18, your Company diversified its portfolio further with new launches in the male grooming, VAHO and colors categories. Leveraging the equity of the Parachute franchise the Company launched Parachute Advanced Men's Hair Crème. The year also saw launches of Hair & Care Fruit Oils and HairCode Herbal Crème. MBL's introduction of these brands are in line with its philosophy of entering categories with a "Right to Win". Our portfolio of winning brands are well-placed to become prominent players in the market.

## Related Party Transaction

In the year FY'18, the Company had related party transactions with its parent company, Marico Limited, India and Marico Middle East FZE, a subsidiary of the parent company. Note 26 of the financial statements include, details of the transactions with the related parties.

## Directors' Declaration as to Financial Statements

The Statement of the Directors' Responsibilities and Management's Report on Internal Control over Financial Reporting for financial statements are given on page 61 of this report.

In addition to regulatory compliance, a robust framework of internal financial controls, MBL's Code of Conduct also embodies high standards of governance and business ethics. As per Bangladesh Securities and Exchange Commission's Notification No-SEC/CMRRCD/2006-158/134/Admin/44 dated August 7, 2012, the Directors are pleased to confirm the following:

- The financial statements together with the notes thereof have been drawn up in conformity with the Companies Act 1994 and law relating to the Bangladesh Securities and Exchange Commission (BSEC) and the Listing Regulations. These statements present fairly the Company's state of affairs, the results of its operations, cash flow and changes in equity.
- Proper books of account of the Company have been maintained.
- Appropriate accounting policies have been consistently applied in preparation of the financial statements and the accounting estimates are based on reasonable and prudent judgment.
- International Accounting Standards and Financial Reporting Standards, as applicable in Bangladesh, have been followed in preparation of the financial statements.
- The systems of internal controls are sound and have been effectively implemented and monitored.
- There are no significant doubts about the Company's ability to continue as a going concern.
- The significant deviations from last year in operating results of the Company have been highlighted in the Report and reasons thereof have been explained.
- The Managing Director and CFO have certified to the Board that they have reviewed the financial statements of the Company and affirm that:
  - These statements do not contain any materially untrue statement or omit any material fact or contain statements that might be misleading.
  - These statements together present a true and fair value of the Company's affairs and are in compliance with existing accounting standards and applicable laws.
  - There are, to the best of their knowledge and belief, no transactions entered into by the Company during the year which are fraudulent,

illegal or in violation of the Company's Codes of Conduct.

A Certificate of Compliance required under BSEC Guidelines, as provided by M/s. Al-Muqtadir Associates, Chartered Secretaries, is annexed to this report. Furthermore, the Report on Corporate Governance and its compliance to the conditions of the Notification has been presented as an Annexure to this report.

Directors of the Company

Board of Directors	Category
Saugata Gupta	Chairman- Nominee Director
Sanjay Mishra	Nominee Director

Chart Title

Details	2013	2014	2015	2016	2017	2018
Total (BDT Crores)	140	143	231	181	195	228

## Distribution to Equity Shareholders

### Dividend Disbursements

Your Company's wealth distribution philosophy aims at sharing its prosperity with its Shareholders. The upward trend reflects consistency in the Company's Dividend disbursements over the years and commitment to ensure the Shareholders' value is maximized.

In FY14, a 500% dividend was disbursed on the occasion of the completion of "Ek Jug" as we celebrated the 12th anniversary and the tremendous journey of our premier brand, Parachute Coconut Oil with our esteemed Shareholders. For this reason the year ended with an overall dividend disbursement of 900% which was an exceptional distribution given the pattern of dividend disbursements.

In FY18, the Company declared interim cash dividends amounting to 500% and recommended a final dividend of 100% at the 99th Board Meeting on April 25, 2017 totalling 600% cash dividend for FY'18.

### Reserves

The total reserves of the Company stood Tk. 124 crores, as share premium and retained earnings. The financial statements reflect the composition of the reserves.

### Events subsequent to the Statement of Financial Position

For the year ended 31st March 2018, the Board of Directors recommended final cash dividend @ 100% per share at 99th Board meeting held on 25th April 2018. Apart from that, there are no other material events identified after year closing with the statement of financial position.

### Shareholder Information & Substantial Shareholding

The distribution of shareholding and market value of shares are given on page 39.

### Statutory Auditors

M/s. Hoda Vasi Chowdhury & Co., Chartered Accountants and Statutory Auditors of the Company, will retire at the conclusion of the ensuing Annual General Meeting. As per BSEC Notification, the Board has, on the basis of suggestion of the Audit Committee, recommended appointment of

"M/S Rahman & Rahman Huq (RRH)" as the statutory Auditor for the year 2018 and to continue upto the conclusion of the next AGM at a fees of Tk. 13,00,000 including Statutory Audit Fee, Annual Group Reporting, Quarterly Review as per new fees Schedule circulated by ICAB w.e.f. 1st Jan, 2016.

### Acknowledgement

The Board takes this opportunity to express their heartfelt thanks to all stakeholders including MBL members, customers, consumers, banks and financial institutions, regulatory bodies, auditors, BSEC, DSE, CSE, CDBL, business associates and finally the Shareholders - for their immense support and contribution towards the success of the Company.

On behalf of the Board

**Naveen Pandey**  
Managing Director

# Annexure to the Board of Director's Report:

## Annexure:II

### Directors' Responsibilities for Financial Statements

The Directors of the Company are responsible for the integrity and accuracy of the financial statements. The Board believes that the financial statements for the year ended on March 31, 2018 have been prepared in conformity with the Bangladesh Accounting Standard (BAS), BFRS/IFRS, Companies Act, 1994, BSEC guidelines, Stock Exchanges Listing Regulations. In preparing the financial statements, management in consultation with the Board makes informed judgments and estimates where necessary to reflect the expected effects of events and transactions that have not been completed. The Company's disclosure controls and procedures ensure that material information required to be disclosed is recorded, processed, summarized and communicated to management and reported within the required time periods. In meeting its responsibility for the reliability of the financial statements, management relies on a system of internal accounting control and internal financial controls. This system is designed to provide reasonable assurance that assets are safeguarded and transactions are executed in accordance with the management's authorization and recorded properly to permit the preparation of financial statements in accordance with BAS/BFRS/IFRS. The design of this system recognizes that errors or irregularities may occur and that estimates and judgments are required to assess the relative cost and expected benefits of the controls. Directors believe that the Company's internal accounting controls provide reasonable assurance that errors or irregularities that could be material to the financial statements are prevented or would be detected within a timely period. The Audit Committee of the Board of Directors is responsible for overseeing the Company's financial reporting process. The Audit Committee meets with management and sees the report of the Company's internal auditors periodically to review the work of each and to monitor the discharge by each of its responsibilities. The independent auditors are engaged to express an opinion on the Company's financial statements and on the Company's internal control over financial reporting. Their opinions are based on procedures that they believe to be sufficient to provide reasonable assurance that the financial statements contain no material errors and that the Company's internal controls are effective.

On behalf of the Board

## Certificate of Compliance to the Shareholders of Marico Bangladesh Limited

**(As required under the BSEC Guidelines)**

We have examined compliance to the BSEC guidelines on Corporate Governance by Marico Bangladesh Limited for the year ended 31st March 2018. These guidelines relate to the Notification no. SEC/CMRRCD/2006-158/134/Admin/44 dated 7th August 2012 of Bangladesh Securities and Exchange Commission (BSEC) on Corporate Governance.

Such compliance to the codes of Corporate Governance is the responsibility of the Company. Our examination was limited to the procedures and implementation thereof as adopted by the Management in ensuring compliance to the conditions of Corporate Governance. This is a scrutiny and verification and an independent audit on compliance of the conditions of Corporate Governance as regulated by BSEC.

In our opinion and to the best of our information and according to the explanations or representations provided to us, we certify that, subject to the remarks and observations as reported in the attached Compliance Statement, the Company has complied with the conditions of Corporate Governance as stipulated in the above mentioned guidelines issued by BSEC.

We also state that such compliance is neither an assurance as to the future viability of the Company nor a certification on the efficiency or effectiveness with which the Management has conducted the affairs of the Company. This is also no endorsement about quality of contents in the Annual Report of the Company for 2018.

# MBL Sustainability Report FY18

## Sustainability Policy

Marico, as a responsible corporate citizen is fully committed to its purpose to make a difference

We are engaging in meaningful dialogue with our stakeholders while striving to improve social, environmental and economic performance of our operations.

### Our commitments :

## Sustainability at Manufacturing Unit

Manufacturing unit has been systematically managing numerous aspects of sustainability for last couple of years.

Our commitment to leadership in sustainability is reflected by our achievement of the ISO 14001:2015 and OHSAS 18001:2007 certifications from BUREAU VERITAS BANGLADESH received by our Manufacturing Units.

## Sustainable Environmental Stewardship

Adoption of Green Manufacturing technologies is not just a social responsibility but a growing facilitator. It has the potential to achieve sustainable development and ensure resource optimization. The MBL Manufacturing Unit plays a crucial role in national sustainability, contributing to sustainable employment, energy usage, reduced water consumption, waste management, renewable energy and greener manufacturing processes and technologies.

MBL has always believed in inclusive growth, growth that leaves a legacy of sustainability in terms of creating value for our stakeholders and distributing that value in the environmental ecosystem that surrounds our entire value chain. As such we are always improving our products and processes to unlock efficiencies and reduce our environmental foot print (starting from product manufacturing to disposal). Our notable endeavors in the arena of environmental stewardship and sustainability include:

**10%**  
Solar Energy among the total Lighting Load

**3.1%**  
Reduction in Power Consumption/Ton

**80%**  
Coverage of LED Light

**9.9%**  
Reduction in Fossil Fuel Consumption/Ton

**1285 KL**  
Reduction in Water Consumption on last year

## Energy Management

At MBL, the commitment to reduce energy consumption is nurtured across the business. To optimize our energy consumption mix and actualize our vision of Green Manufacturing, we focused on following areas:

Selecting the core components –e.g. pumps, fans, compressors, transmissions, variable speed drives- with the right type and size and high efficiency.

Optimizing the design and the entire system's operation.

SPC(Unit/MT)

SFC(Ltr/MT)

### 3 major initiatives taken for fuel consumption control-

Increased boiler upper cut off pressure to reduce line loss & reduced the consumption of BDT 409,365 equivalent diesel

Modification of steam and condensate pathway from boiler to crushing plant. It reduced the line loss & there is a potential of saving more than 18 lac BDT per year.

Catalyst has been introduced to increase burning

Efficiency which delivers savings of upto 3 ltr/hr equivalent to BDT 8 lac saving potential per year

## Water Management Is Crucial To Our Business

From an industrial perspective sustainable growth goals include reducing both resource consumption (e.g., water) and harmful environmental impacts, while increasing profitable growth.

At MBL, as water is a critical material area for our business our first initiatives focused on reducing specific water consumption at our plant. Shirirchala unit saved about 1260 KL water by installing PPPU in steam line. On the other hand we have installed Effluent Treatment Plant where potential of reusing treated water in system is more than 1000 KL water per year from total water consumption.

## Sustainability Focus Areas Across The Business

### 1. Sustainable Procurement

As Marico's material and service requirements are varied, sustainable procurement becomes critical for the business. It can help save money, reduce waste, improve competitiveness and reduce business risk. We lay emphasis on procuring raw materials which are not just cost effective but responsible in nature too. We aim to procure goods which are economically viable and which benefit the organization, customers, society and the environment.

### 2. Energy Management

As a responsible corporate, we aim to reduce our energy consumption and adopt environmental-friendly production technologies. We are committed to make every effort to invest in efficient usage of renewable and nonrenewable energy.

### 3. Water Management

Availability of water is a global challenge today and as a part of our ongoing sustainability commitment we aim to set new benchmarks in this material area of our business. We aim to become a water-positive business and focus on the direct requirements which can make an immediate impact.

### 4. Waste Management

Waste Management is an area of high relevance to our business and managing generated waste is critical for us. We are committed to reducing our waste on a year-on-year basis and having a robust waste recycling and reusing mechanism in place.

### 5. Product Responsibility

The products we manufacture are used by people every day, and our consumers expect our products to be environmentally and socially responsive. Therefore, we aim to provide products that are safe in nature and do not impact the environment and community adversely while maintaining high quality standards. We are committed to investing in recyclable and renewable materials in our product manufacturing.

### 6. Future-ready capability building.

Building competencies is a progressive process; in a dynamic environment it becomes critical to build future-ready capabilities for business and Individual growth.

# Corporate Social Responsibility

At Marico Bangladesh Limited we believe that the power of a business is in its purpose, not its profits. In furtherance of this belief as responsible corporate citizens of Bangladesh, contribution towards the society and making a positive impact to the communities around us is an integral part of our ethos and culture. Our activities in Corporate Social Responsibility (CSR) have been aimed at making a lasting impact for the betterment of our society as it is inculcated in our philosophy to truly make a difference.

## DAM-Marico CLC Project

As part of our continued efforts to create a positive lasting impact on the society, our continued partnership with Dhaka Ahsania Mission (DAM) to bring the light of education to underprivileged communities. With 75 Children Learning Centres offering education, life and social skills, the Center has enrolled 3000+ children, mainstreamed 863 children in formal schools in the Melandah Upazila of Jamalpur district, which has historically suffered from very low literacy rate. This is the third year for Marico to have been part of this great project. The partnership has had an overall impact in embedding social awareness of child rights and common consensus against the evils of child marriage and dowry.

Providing Non-formal primary education to

**3100 +**

Out-of-School Children

Designed to run by mobilizing the Community

**IMPACT OF DAM-MARICO CLCs**

The model is designed to have community inclusive participation to ensure that the community is able to serve the primary education needs of its children and so that the project is able to drive community capability development. The beneficiaries of this project are not just the 3100+ children and their families but the related communities as well. The CLCs have 100% attendance. The project employs persons from the communities as teachers and imparts extensive training to the teachers to enable them to be self-sufficient and equip them with sustainable skills.

**~1%**

Proportion of PAT contributed towards the project

# Organization Culture

Marico believes in living a celebratory culture which is evident in the various mediums through which significant national and international events are observed as well as member achievements are recognized.

## Pohela Boishakh

Pohela Boishakh, the Bangla New Year, was celebrated with a lot of colors, music, food and festivity. The members partook in the traditional lunch followed by a cultural program where Marico members were star performers demonstrating their musical and cultural prowess.

## Women’s Day Celebration at the Office

Encouraging diversity and meritocracy is tied to the core values of Marico and the celebrations of International Womens’ Day communicated these with the theme for 2018 #PressforProgress. The day was kicked off with a “Tactical Krav Maga” --Self Defense Training for the female members of Marico Bangladesh Limited. It was closed with deliberation over a Ted Talk session anchored by the Managing Director on what it means to each member to #pressforprogress in the context of their personal and professional lives.

## Organizational Communication Event

“Organizational Communications” is an annual signature event where the Leadership of Marico provides the business update to the members on the performance of the last year and cascades the vision/plans for the years ahead which enables all members to have a shared picture of success In line with our values of openness and transparency we rely on a top-down, bottom-up management approach to foster these values across the layers of the organization and this event is a reflection of this ideology.

## MBL Family Night

The Marico Bangladesh Family Night is an event where all members come together with their families to engage and celebrate their shared journey as Mariconians. This event took place at International Convention City Bashundhara (ICCB). One of the highlights of the evenings is recognition of members with long association with Marico along with the interactive segments with members' spouses. In addition, there were indoor games and other activities to engage the families and children attending MBL Family Night.

## Football! Football!

Marico Bangladesh members have participated in 12th ASCENT CUP Corporate Football 2017. The purpose of this tournament was to engage the enthusiast members and keep them physically active. Though we could not win the trophy this year but it was fun and engaging.

## Blood Donation Camp

Marico not only consciously drives member engagement internally but member engagement with the society in which we operate is also a demonstration of our core value of boundarylessness. Marico Mouchak Plant members took the initiative to organize Voluntary Blood Donation Camp at factory premises where almost every MBL Member and outsourced workers participated. It aims at spreading awareness amongst the community on the importance of blood donation and how a drop of blood donated can be instrumental in saving life.

## Recognition on the Go

"Sales Hall of Fame"---is a new initiative designed to ensure recognition to superlative individual performances among the Sales Frontline. The "Territory Manager of the Month" piece is an attempt to recognize the best Frontline member for a particular month. The second piece of "Achiever's Club" is meant to similarly recognize impactful performances which enables us to seize competitive advantage in the marketplace. This recognition module further reinforces our endeavour to ensure the pervasiveness of Marico values among all Mariconians.

## Young Leader Program

This program was designed to ensure the NextGen leaders of Marico are home grown and future ready. This unique capability development endeavour bordered on the concepts of "Action Based Pedagogy" where participants learnt key management tools through carefully designed simulations of real life challenges. The program also augmented the need of broader changes at personal and societal levels to ensure we become better corporate managers and operate as a responsible corporate citizen.

# Projects & Initiatives

## Successful Journey of Shirirchala Crushing & Refinery Unit

After establishment of In house Refinery plant last year, Shirirchala went onto successfully run Crushing & Refining unit operation simultaneously. The plant also achieved a milestone of Crushing 3000+ Ton Copra in a single month.

## Marico Safety - "Safety starts with you!"

A safe workplace is at the core of Marico's values and factory operations. In the next step of its safety journey MBL Shirirchala Plant initiated "Safe Man Days Counting". From May 2016 till date MBL Shirirchala Plant achieved 800 Safe Man Days without any major accident.

As another pillar of the Safety Framework of MBL Factories, a Fire Safety training was conducted by Fire Service & Civil Defense Bangladesh to a larger group of MBL Plant and Corporate Members with the motto "Safety Starts With Me".

### 8th Marico Quality Week

MBL is committed to quality par excellence which is the foundation of our portfolio of winning brands and the promise of our flagship brand Parachute. Marico celebrates Quality Week- a week dedicated to drive quality rigour to ensure our brands maintain their position as market leaders and the trust of consumers. Quality Week is designed with lots of engagement activities like Quality riddles, quiz, poster making competition, defect stall, 5S campaign, quality display etc.

### Ignite the Young Minds: Future Leaders to ensure Quality Environment

As part of social responsibility, MBL factory members also visit local schools to engage little school going children in raising awareness about basic safety and hygiene practice, Do and Don'ts of everyday work, road safety, drawing competition, SACHWATA OVJIAN-cleaning campaign etc. which delivers messages on leading a quality life and building clean practices through team work.

## Industrial Attachment Program

Industrial Attachment Program is an open window of Marico which creates opportunity to fresh graduates from BUET and other top-tier engineering schools of the country to learn operational management in a practical environment. The program not only provides a unique learning to the participants but also strengthens MBL's employer branding.

Industrial Attachment Program of 3 Chemical Engineering Students of BUET (Started from 13.03.2018; Duration 2 Weeks)

Visit by Prof. Dr. Nikhil Ranjan Dhar, Dr. Sudipa & Mr. Sourav of Industrial and Production Engineering Dept., BUET (on 11.09.2017)

Industrial Attachment Program of 3 IPE Students of BUET (started from 22.03.2018; Duration 3 Weeks)

## Engagement with workers: Picnic, team building, Sports and so much more

## Regulatory Visits

Factory Visit by Mr. Anjan Chandra Mandal- Additional Deputy Director, Department of Agricultural Extension

Senior Management conducting Factory Induction of Bangladesh Investment Development Authority (BIDA)

## Order Management

MBL Supply Chain took customer service to the next level by implementing Order Management tool which aims to bring discipline in ordering process, reduce sales orders fluctuation and increase range selling. After implementation of order management, SKU Range selling (RSL) has increased by 3.5%, distributor service level (DSL) increased by 14% & permanent dispatch plan (PDP) efficiency increased by 10%.

## Supplier Relationship Management Excellence

MBL believes its business partners are core to its growth journey and places high value on supplier relationship management (SRM). After implementing best-in-class SRM practices all vendors achieved "A level" under the vendor quality Index. The team also introduced feedback survey and collaboration mechanisms across vendors for further efficiency improvement. Cost efficiencies were derived through vendor consolidations and logistics optimization. MBL SCM day out 2018 took place in Kuakata to increase team bonding, set up functional KRA for the next year and recognize the good work of the team. This had acted as motivational drivers for the entire team.

### Marico Leadership Series

A glimpse of the “Annual Finance Meet-2018” at Nazimgarh Wilderness Resort, Lalakhal, Jaintapur, Sylhet during 8-9th February, 2018; a signature event for the full finance team of Marico Bangladesh Limited including Corporate Finance, Commercial Finance & Factory finance members led by the CFO.

### Marico Leadership Series

The Marico Leadership has now become the signature corporate initiative of the Company. The Leadership Series is a platform for mentoring, networking and promotion of dialogue within the talent pool of the industry. The idea is to expose our talent to leadership behaviour not just within their own organizations but outside the organization as well and also to leverage the same for gaining valuable insights & perspectives across industries and professions. The Series has gained a traction within its first year of launch with each series seeing an average attendance of 50+ participants from other corporates and from different professions including retired bureaucrats, CEOs, journalists. The platform witnessed a diverse range of speakers including Rajesh Ramakrishnan, CEO, Perfetti Van Melle Bangladesh; Rajesh Ramakrishnan, CEO, Perfetti Van Melle Bangladesh; Farooq Siddiqi, Global Head of Trade & Transaction, Standard Chartered Bank; Shameran Abed, Director-Microfinance & Ultra-Poor Programs, BRAC; Geetyara Safia Chowdhury, Founder Chairman, AdComm; Aly Zaker, Freedom Fighter, Group Chairman-Asiatic 360; Saugata Gupta, CEO, Marico Group and N. Rajashekar (Shekar), Citi Country Officer (CCO), Citibank NA. The unique approach and format of the series has also got considerable PR Coverage in various National Dailies.

### Marico@Facebook

MBL has also launched its official facebook page where various updates of the organization are shared and gives an opportunity for both members and a broader range of stakeholders to engage with the organization

### Independent Auditors' Report To the Shareholders of Marico Bangladesh Limited

#### Report on the Financial Statements

We have audited the accompanying financial statements of Marico Bangladesh Limited (the "Company") which comprise the statement of financial position as at 31 March 2018, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Bangladesh Financial Reporting Standards (BFRSs), the Companies Act 1994, the Securities and Exchange Rules 1987 and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing (BSAs). Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Company as at 31 March 2018, and of its financial performance and its cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards (BFRSs).

#### Report on Other Legal and Regulatory Requirements

In accordance with the Companies Act 1994 and the Securities and Exchange Rules 1987, we also report the following:

- we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;
- in our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of those books;
- the Company's statement of financial position, and the statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of account; and
- the expenditure incurred was for the purposes of the Company's business.

# Notes to the financial statements

as at and for the year ended 31 March 2018

## **1 Reporting entity**

### **1.1 Formation and legal status**

Marico Bangladesh Limited (hereinafter referred to as “MBL”/“the Company”) is a public limited company incorporated on 6 September 1999, vide the certificate of incorporation number C-38527(485)/99 of 1999 in Bangladesh under the Companies Act 1994 and has its registered address at House # 01, Road # 01, Sector # 01, Uttara Model Town, Dhaka-1230. The Company was initially registered as a private limited company and subsequently converted into a public limited company on 21 September 2008. The Company listed its shares with both Dhaka Stock Exchange (DSE) and Chittagong Stock Exchange (CSE) on 16 September 2009. The ultimate parent of MBL is Marico Limited incorporated in India.

### **1.2 Nature of business**

The Company is engaged in manufacturing and marketing of consumer products under the brand name of Parachute, Nihar, Saffola, Hair Code, Livon, Parachute Advansed, Beliphool, Ayurvedic Gold, Extra Care, Parachute Body Lotion, Set-Wet and Bio Oil in Bangladesh. The Company started its commercial operation on 30 January 2000. Subsequently, it started its commercial production at Filling unit, Crushing unit and Refinery Unit in 2002, 2012 & 2017 respectively. Its manufacturing plants are located at Mouchak, Kaliakoir, Gazipur and Shirirchala, Mahona Bhabanipur, Gazipur. The Company sells its products through its own distribution channels comprising of sales depots located in Gazipur, Chittagong, Bogra and Jessore.

## **2 Basis of preparation**

### **2.1 Statement of compliance**

These financial statements have been prepared in accordance with International Accounting Standards (IASs), International Financial Reporting Standards (IFRSs) as adopted in Bangladesh by the Institute of Chartered Accountants of Bangladesh as Bangladesh Accounting Standards (BASs) and Bangladesh Financial Reporting Standards (BFRSs), the Companies Act 1994, the Securities & Exchange rules 1987 and other applicable laws in Bangladesh.

Details of the Company’s accounting policies are included in note 39.

### **2.2 Authorisation for issue**

These financial statements are authorised for issue by the Board of Directors in its 99th Board of Directors Meeting held on 25 April 2018.

### **2.3 Basis of measurement**

These financial statements have been prepared on going concern basis under the historical cost convention.

### **2.4 Functional and presentation currency**

These financial statements are presented in Bangladeshi Taka (Taka/TK/BDT) which is the Company’s functional and presentation currency. All amounts have been rounded off to the nearest integer.

### **2.5 Reporting period**

These financial statements of the Company cover the financial year from 1 April 2017 to 31 March 2018 with comparative figures for the financial year from 1 April 2016 to 31 March 2017.

## 2.6 Use of estimates and judgments

The preparation of financial statements in conformity with BFRS requires management to make judgments, estimates and assumptions that influence the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Judgments and estimates are based on historical experiences and other factors, including expectations that are believed to be reasonable under the circumstances. Hence, actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the financial statements are included in the following notes:

Note-4	Property, plant and equipment
Note-5	Intangible assets
Note- 6	Deferred tax assets
Note-9	Inventories
Note-14	Employee benefit obligation
Note- 17	Current tax liabilities
Note-39.10	Provisions
Note-39.16	Contingencies

## 2.7 Basis of fair value measurement

As fair value is a market based measurement, when measuring the fair value of an asset or a liability, MBL uses market observable data as far as possible though entity's intention to hold an asset or to settle or otherwise fulfill a liability is not relevant while measuring fair value.

Fair values are categorised into different levels in a fair value hierarchy based on inputs used in the valuation technique as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable input).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of fair value hierarchy as the lowest level input that is significant to the entire measurement.

MBL recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in Note 31: Financial instruments - Fair values and financial risk management.

## 2.8 Materiality and aggregation

Each material class of similar items is presented separately in the financial statements. Items of dissimilar nature or function are presented separately unless they are immaterial.

## **2.9 Current vs. non-current classification**

The Company presents assets and liabilities in statement of financial position based on current/non-current classification.

### **An asset is current when it is:**

- i) expected to be realised or intended to be sold or consumed in normal operating cycle
  - ii) held primarily for the purpose of trading
  - iii) expected to be realised within twelve months after the reporting period or
  - iv) cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months
- All other assets are classified as non-current.

### **A liability is current when it is:**

- i) expected to be settled in normal operating cycle
- ii) held primarily for the purpose of trading
- iii) due to be settled within twelve months after the reporting period or
- iv) there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current. Deferred tax assets/liabilities are classified as non-current assets/liabilities.

## **2.10 Offsetting**

The Company reports separately both assets and liabilities, and income and expenses, unless required or permitted by applicable Accounting Standards or offsetting reflects the substance of the transaction or other event and hence permitted by applicable Accounting Standards.

## **2.11 Comparative and reclassification**

Comparative information has been disclosed for all numerical, narrative and descriptive information where it is relevant for understanding of the current year's financial statements. Comparative figures have been rearranged/reclassified wherever considered necessary, to ensure better comparability with the current year's financial statements and to comply with relevant BFRSs.

## **2.12 Statement of cash flows**

Statement of cash flows is prepared under direct method in accordance with BAS 7 Statement of Cash Flows as required by the Securities and Exchange Rules 1987.

## **2.13 Going concern**

The Company has adequate resources to continue its operation for foreseeable future and hence, the financial statements have been prepared on going concern basis. As per management's assessment there are no material uncertainties related to events or conditions which may cast significant doubt upon the company's ability to continue as a going concern.

### 3 New accounting standards not yet adopted

The Company has consistently applied the accounting policies as set out in Note 39 to all periods presented in these financial statements. The various amendments to standards, including any consequential amendments to other standards, with the date of initial application of 1 April 2017 have been considered. However, these amendments have no material impact on the financial statements of the Company.

In December 2017, ICAB has decided to adopt IFRS replacing BFRS effective for annual periods beginning on or after 1 January 2018. However, since currently issued BFRS have been adopted from IFRS without any major modification, such changes would not have any material impact on financial statements.

A number of standards and amendments to standards are effective for annual periods beginning after 1 January 2018 and earlier application is permitted. However, the Company has not early applied the following new standards in preparing these financial statements.

#### **BFRS 9 Financial instruments (to be adopted as IFRS 9)**

BFRS 9, published in July 2014, replaces the existing guidance in BAS 39 Financial Instruments: Recognition and Measurement. BFRS 9 includes revised guidance on the classification and measurement of the financial instruments, a new expected credit loss model for calculating impairment of financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from BAS 39. BFRS 9 is effective for annual reporting periods beginning on or after 1 January 2018, with early adoption permitted.

#### **BFRS 15 Revenue from contracts with customers (to be adopted as IFRS 15)**

BFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaces existing recognition guidance, including BAS 18 Revenue, BAS 11 Construction Contracts and BFRS 13 Customer Loyalty Programmes. BFRS 15 is effective for annual reporting periods beginning on or after 1 January 2018, with early adoption permitted. Based on preliminary assessment the Company has determined that BFRS 15 has no material impact on its financial statements.

#### **IFRS 16 Leases**

IFRS 16, issued in January 2016 replaces existing leases guidance and effective for reporting period beginning on or after 1 January 2019. It will result in almost all leases being recognised on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases. The accounting for lessors will not significantly change. The Company has not yet assessed any potential impact of IFRS 16 on its financial statements.

#### 4 Property, plant and equipment

<b>25 Earnings per share</b>		
<b>25.1 Basic earnings per share</b>		
The computation of EPS is given below:		
Earnings attributable to ordinary shareholders (Net profit after tax)	1,642,627,361	1,440,192,071
Weighted average number of ordinary shares outstanding during the year	31,500,000	31,500,000
Earnings per share (EPS) in Taka	52.15	45.72

**25.2 Diluted earnings per share**

Since there is no dilutive factor, diluted earnings per share is not required to be calculated.

## 26 Related party transactions

During the year the Company carried out a number of transactions with related parties in the normal course of business and on an arm's length basis. The name of related parties, nature of transactions, their total value and closing balance have been set out in accordance with the provisions of BAS 24 Related party disclosure:

Name of the related parties	Relationship	Nature of transactions	Transaction Amount	Balance as at 31 March 2018	Balance as at 31 March 2017
			Taka	Taka	Taka
Marico Limited, India	Parent company	Purchase of RM, PM and FG	76,634,358	1,531,650	153,267,190
		Royalty	74,744,920	209,646,298	134,901,377
		Dividend	1,559,250,000	-	-
		General and technical assistance fees	76,822,856	220,299,097	136,302,429
Marico Middle East FZE	Subsidiary of parent company	Purchase of raw materials	2,851,146,491	100,477,183	90,381,891

## 27 Capacity

Major product	Unit of Measure	Installed Capacity
PCNO	KL	20,500
VAHO	KL	10,200
Copra	Ton	36,000
Refined oil	Ton	18,000

## 28 Operating leases - leases as lessee

Non-cancellable operating lease rentals are payable as follows:

	2018 Taka	2017 Taka
No later than one year	27,754,560	1,840,000
Between two and five years	43,297,114	5,520,000
More than five years	-	-
	<u>71,051,674</u>	<u>7,360,000</u>

The Company leases corporate office, a number of warehouses, depots and sales office facilities under operating leases. During the year, an amount of BDT 14,803,778 was recognised relating to non-cancellable operating lease.

## 29 Commitment

i) Capital commitment		
Estimated amount of contracts remaining to be executed on capital account	<u>1,500,885</u>	<u>39,831,095</u>
ii) Other commitment		
Outstanding L/C	<u>432,496,086</u>	<u>493,308,632</u>

L/C amount for import of raw material, packing materials and finished goods which were not received till the reporting date.

## 30 Contingent Liabilities

The Company has contingent liability of Taka 1,074,416,048 as on 31 March 2018 in respect of indirect tax (VAT) and workers' profit participation & welfare fund. These are being vigorously defended by the Company. The management does not consider that it is appropriate to make provision in respect of any of these claims.

31 Financial instruments - Fair values and financial risk management

31.1 Accounting classifications and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

31 March 2018

Figures in Taka

Particulars	Note	Carrying amount							Fair value

## 31.2 Financial risk management

The Company management has overall responsibility for the establishment and oversight of the Company's risk management framework. Risk management policies, procedures and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company has exposure to the following risks from its use of financial instruments-

- Credit risk
- Liquidity risk
- Market risk

### 31.2.1 Credit risk

Credit risk is the risk of financial loss if a customer or counterpart to a financial instrument fails to meet its contractual obligation which arises principally from the Company's receivables from customers.

The Company makes sales on advance basis i.e. it receives advance from customers prior to sale so there is no credit risk due to uncollectibility from the customers. However, the Company maintains most of the financial assets with short-term deposits and cash and cash equivalents.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

Financial assets	Note	2018	2017
		Taka	Taka
Fixed deposits	10.1	1,237,525,917	1,308,587,800
Security deposits	7 & 10	9,141,470	2,764,000
Loans to employees	7 & 10	9,034,363	10,450,221
Cash and cash equivalents	12	269,743,772	166,833,748
Total financial assets		1,525,445,522	1,488,635,769

### 31.2.2 Liquidity risk

Liquidity risk is the risk that the Company may encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or other financial assets.

The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The contractual maturities of financial liabilities of the Company are as follows:

Year	Note	Carrying amount	Contractual cash flows		
			Total	Upto 1 year	Above 1 year
			Taka	Taka	Taka
<b>2018</b>					
Loans and borrowings	15	300,000,000	300,000,000	300,000,000	-
Trade and other payables	16	2,222,763,532	2,222,763,532	2,222,763,532	-
<b>2017</b>					
Trade and other payables	16	1,740,557,065	1,740,557,065	1,740,557,065	-

### 31.2.3 Market risk

Market risk is the risk that includes changes in market price, such as foreign exchange rate, interest rates and equity prices that may affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

#### i) Currency risk

The Company's exposures to foreign currency risk at 31 March 2018 are as follows:

	2018	2017
	USD	USD
Import of goods and services	(4,919,224)	(5,152,613)
Bank balance	79,805	79,805
	<u>(4,839,419)</u>	<u>(5,072,809)</u>

The following significant exchange rates have been applied during the year:

	Average rate		Year-end spot rate	
	2018	2017	2018	2017
Exchange rate (USD/BDT)	81.81	78.57	83.90	79.71

#### ii) Foreign exchange rate sensitivity analysis

The basis for the sensitivity analysis to measure foreign exchange risk is an aggregate corporate-level currency exposure. The aggregate foreign exchange exposure is composed of all assets and liabilities denominated in foreign currencies.

A 1% change in foreign exchange rates would have increased/(decreased) equity and profits or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates remain constant.

Effect in BDT	Profit/(loss)		Equity	
	Strengthening	Weakening	Strengthening	Weakening
<b>31 March 2018</b>				
USD (1% movement)	(4,060,273)	4,060,273	(4,060,273)	4,060,273
<b>31 March 2017</b>				
USD (1% movement)	(4,043,536)	4,043,536	(4,043,536)	4,043,536

### iii) Interest rate risk

Interest rate risk is the risk that arises due to changes in interest rates. The Company is not exposed to fluctuations in interest rates as it has no floating interest rate bearing financial liability as at the reporting date. The Company has not entered into any agreement involving derivative instrument at the reporting date.

As at 31 March 2018, the interest rate profile of the Company's interest bearing financial instruments was:

	2018 Taka	2017 Taka
<b>Fixed rate instruments</b>		
Financial assets		
Fixed deposit receipts	1,456,980,201	1,382,426,576
Financial liabilities	300,000,000	-
<b>Variable rate instruments</b>		
Financial assets	-	-
Financial liabilities	-	-
<b>32 Value of import calculated on CIF Basis</b>		
Materials and finished goods	3,237,870,800	2,431,319,139
Capital goods	27,881,291	96,801,369
	<b>3,265,752,091</b>	<b>2,528,120,508</b>
<b>33 Expenditure in foreign currency</b>		
General and technical assistance fees	76,822,856	54,071,433
Professional consultation fees	3,301,685	14,719,725
	<b>80,124,541</b>	<b>68,791,158</b>
<b>34 Dividends</b>		
The Company remitted the following amounts, net of taxes, in foreign currency during the year to Marico Limited, India, a non-resident shareholder of the Company.		
Final dividend for 2015-2016	-	127,575,000
1st interim dividend for 2016-2017	-	382,725,000
2nd interim dividend for 2016-2017	-	765,450,000
Final dividend for 2016-2017	127,575,000	-
1st interim dividend for 2017-2018	637,875,000	-
2nd interim dividend for 2017-2018	637,875,000	-
	<b>1,403,325,000</b>	<b>1,275,750,000</b>
<b>35 Capital management</b>		

For the purpose of the company's capital management, capital includes issued capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

To maintain or adjust capital structure, the Company may adjust the amount of dividend, return on capital, issue new share or obtain long term-debt. All major investment and financing decisions, as a part of its capital management, are evaluated and approved by its Board of Directors .

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2018 and 2017.

### 36 Segment information

The Company essentially provides similar products to customers across the country. Business activities in which it engages and the economic environments in which it operates are of similar nature. Its business is not segmented by products or geographical areas and its operating result is viewed as a whole by its management. Hence, segment information is not relevant for the Company.

### 37 Number of employees

The number of employees engaged for the whole period or part thereof who received a total salary of Taka 36,000 p.a. and above was 256 (previous year: 252) among them 44 employees left from Marico Bangladesh Limited and total 213 (previous year: 212) employees existed as at 31 March 2018.

### 38 Subsequent events

For the year ended 31 March 2018 the Board of Directors recommended final cash dividend @ 100% per share at 99th Board of Directors Meeting held on 25 April 2018.

There is no other significant event after the reporting period that requires either disclosure of or adjustment to these financial statements.

### 39 Significant accounting policies

The Company has consistently (otherwise as stated) applied the following accounting policies to all periods presented in these financial statements.

Note	Particulars
39.1	Foreign currency transactions
39.2	Property, plant and equipment
39.3	Intangible assets
39.4	Inventories
39.5	Financial instruments
39.6	Share capital
39.7	Dividend to the equity holders
39.8	Employee benefits
39.9	Accruals
39.10	Provisions
39.11	Property, plant and equipment
39.12	Revenue
39.13	Finance income and finance cost
39.14	Lease
39.15	Impairment
39.16	Contingencies
39.17	Earnings per share
39.18	Events after the reporting period

#### 39.1 Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency (BDT) at exchange rates at the dates of transactions. Monetary assets and liabilities denominated in foreign currencies at reporting date are re-translated into Bangladeshi Taka (BDT) at the exchange rates ruling at the statement of financial position date. Non-monetary assets and liabilities denominated in foreign currencies, stated at historical cost, are translated into Bangladeshi Taka (BDT) at the exchange rate ruling at the date of transaction. Foreign exchange differences arising on translation are recognised in profit or loss.

## 39.2 Property, plant and equipment

### i) Recognition and measurement

Property, plant and equipment (PPE) is recognised as an asset if it is probable that future economic benefits associated with the asset will flow to the entity and the cost of the item can be measured reliably.

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the assets, bringing the assets to the location and condition necessary for it to be capable of operating in the manner intended by management.

Parts of an item of property, plant and equipment having different useful lives, are accounted for as separate items (major components) of property, plant and equipment.

### ii) Subsequent cost

Subsequent cost of an item of property, plant and equipment is capitalised only if it is probable that future economic benefits embodied within the item will flow to the Company and its costs can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

### iii) Depreciation

No depreciation is charged on land and asset under construction (AuC) as the land has unlimited useful life and AuC has not yet been placed in service /commissioned.

Other items of property, plant and equipment is depreciated on a straight line basis in profit or loss over the estimated useful lives of each item of property, plant and equipment. Depreciation is based on the cost of an asset less its residual value. Significant components of individual assets are assessed and if a component has a useful life that is different from the remainder of that asset, that component is depreciated separately. Depreciation is charged from the month of acquisition of property, plant and equipment and no depreciation is charged in the month of disposal.

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate. The estimated useful lives of the items of property, plant and equipment for the current and comparative period are as follows:

Assets	Depreciation rate
Plant and machinery	10-33%
Factory equipment	20-33%
Moulds	15-33%
Factory building	5-20%
Laboratory equipment	20-33%
Office equipment	33-50%
Vehicles	20-25%
Computers	33-50%
Furniture and fixtures	20-50%
Office building	10-20%
A.C and refrigerators	20-33%

### iv) Derecognition

An asset is derecognised on disposal or when no future economic benefits are expected from its use and disposal. Gains or losses arising from the derecognition of an asset are determined as the difference between net disposal proceeds and the carrying amount of the assets and are recognised in profit or loss.

### v) Asset under construction

Asset under construction represents the cost incurred for acquisition and/or construction of items of property, plant and equipment that are not ready for use which is measured at cost. These are transferred to the property, plant and equipment on the completion of the projects.

#### **vi) Capitalisation of borrowing costs**

As per the requirements of IAS/BAS 23 *Borrowing Costs*, directly attributable borrowing costs are capitalised during construction period for all qualifying assets. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale. The borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are those borrowing costs that would have been avoided if the expenditure on the qualifying asset had not been made. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

### **39.3 Intangible assets**

#### **i) Recognition and measurement**

Intangible assets have finite useful lives and are stated at cost less accumulated amortisation and any impairment losses. Intangible assets are recognised in accordance with BAS 38 *Intangible assets*. Intangible assets include cost of acquisition of computer software, intellectual property, copyright and other costs incidental to such capital expenditure.

#### **ii) Subsequent costs**

Subsequent costs are capitalised only when they increase the future economic benefits embodied in the specific asset to which they relate. All other costs are recognised in profit or loss as incurred.

#### **iii) Amortisation**

Amortisation is recognised in profit or loss on straight line basis over the estimated useful lives of intangible assets from the date they are available for use.

Intangible assets are amortised at the rate of 20% to 33%.

#### **iv) Derecognition**

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of intangible assets, measured as the difference between the net disposal proceeds and the carrying amount of the assets, are recognised in profit or loss.

### **39.4 Inventories**

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on weighted average cost method, and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity. Stores and spares and material in transit are measured at cost.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

### **39.5 Financial instruments**

Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial instrument comprises any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Non-derivative financial instruments comprise of investments in shares and term deposit, trade and other receivables, cash and cash equivalents, trade and other payables, share capital and interest-bearing borrowings.

**i) Financial assets**

The Company initially recognises receivables and deposits issued on the date when they are originated. All other financial assets are initially recognised on the trade date.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred, or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset.

The Company's financial assets comprise short term investment, refundable deposits, loans to employees and cash and cash equivalents.

**Short-term investment**

Short-term investment consists of fixed deposits with original maturity of more than three months. The Company has the positive intent and ability to hold FDR to maturity, and such financial assets are classified as held-to-maturity. Held-to-maturity financial assets are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, held-to-maturity financial assets are measured at amortised cost using the effective interest method, less any impairment losses.

**Cash and cash equivalents**

Cash and cash equivalents comprise cash in hand and demand deposits, together with short-term, highly liquid investments that are readily convertible to a known amount of cash, and that are subject to an insignificant risk of changes in value. An investment normally meets the definition of a cash equivalent when it has a maturity of three months or less from the date of acquisition.

**ii) Financial liabilities**

The Company initially recognises financial liabilities on the transaction date at which the Company becomes a party to the contractual provisions of the liability. The Company's financial liabilities comprise loans and borrowings, trade and other payable.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired.

**Trade and other payables**

The Company's financial liabilities comprise trade and other payables which consist of payable against raw material, packing material, payable against transport and service, payable against royalty, general and technical assistance fees, payable against ASP and SLI activities, purchase of capital goods and for FOH expenses. These payables are classified as other financial liabilities.

The Company recognises such financial liability when its contractual obligations arising from past events are certain and the settlement of which is expected to result in an outflow from the entity of resources embodying benefits.

**39.6 Share capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares, net of any tax effects, are recognised as a deduction from equity.

Paid up capital represents total amount contributed by the shareholders and bonus shares, if any, issued by the Company to the ordinary shareholders. Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to vote at shareholders' meetings. In the event of a winding up of the Company, ordinary shareholders rank after all other shareholders and creditors and are fully entitled to any residual proceeds of liquidation.

**39.7 Dividend to the equity holders**

The Company recognises a liability to make cash dividend when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in Bangladesh, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

## **39.8 Employee benefits**

### **i) Short-term employee benefits**

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

### **ii) Defined benefit plans (Gratuity)**

The Company operates unfunded gratuity scheme, provision in respect of which is made annually covering all its eligible employees. This scheme is qualified as defined benefit plan.

The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Company, the recognised asset is limited to the total of any unrecognised past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. When the benefits of the plan are improved, the portion of the increased benefit related to past service by employees is recognised in profit and loss on a straight line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognised immediately in profit and loss. Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognised immediately in other comprehensive income. Relevant tax impacts of such remeasurements are also recognised under other comprehensive income.

### **iii) Leave encashment**

The Company operates unfunded leave encashment scheme, i.e. if its employees do not avail leave during his/her service, s/he will be entitled to encash privilege leave at the time of separation from the Company subject to maximum 40 days, at the rate of one month's basic pay for 30 days of privilege leave. This scheme is qualified as other long term employee benefits.

The Company's net obligation in respect of leave encashment scheme is the amount of future benefit that employees have earned in return for their service in the current and prior periods and the calculation is performed annually by a qualified actuary.

### **iv) Workers' profit participation and welfare fund**

The Company operates fund for workers as Workers' profit participation and welfare fund ("the Fund") and provides 5% of its profit before tax as per provision of the Bangladesh Labour Act 2006. The Company recognises the contribution to the fund as short term employee benefits.

The Fund is governed by Bangladesh Labour Act, 2006 as amended up to 22 July 2013 and the trust deed.

## **39.9 Accruals**

Accruals are liabilities to pay for goods or services that have been received or supplied but have not been paid, invoiced or formally agreed with the supplier, including amongst due to employees. Accruals are reported as part of Trade and other payables.

## **39.10 Provisions**

A provision is recognised in the statement of financial position when the Company has a legal or constructive obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate thereof can be made.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits are required to settle the obligation, the provision are reversed.

**39.11 Income tax**

Income tax expense comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

**i) Current tax**

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Provision for corporate income tax is made following the rate applicable for companies as per Finance Act 2017 i.e 25% (2016: 25%).

**ii) Deferred tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

**39.12 Revenue**

Revenue is recognised when the risk and reward of the ownership is transferred to the buyer, recovery of the consideration is probable, the associated cost and possible return of goods can be estimated reliably, and there is no continuing management involvement with the goods sold and the amount of revenue can be measured reliably. Transfer of risk and rewards occurs for the sale of goods when the product is delivered along with dispatch documents and invoiced to customers. Revenue from sale of goods is measured at fair value of the consideration received or receivable net off return and allowance, volume rebates and value added tax.

**39.13 Finance income and finance cost****i) Finance income**

Finance income comprises interest income on funds invested and is recognised as it accrues in profit or loss using the effective interest method.

**ii) Finance cost**

Finance costs comprise interest expense on borrowings and foreign exchange gain or loss.

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest method.

**39.14 Lease**

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are considered as operating leases and not recognised in the Company's statement of financial position. Payments made under operating leases are recognised in profit or loss on a straight line basis over the term of the lease.

**39.15 Impairment****i) Financial assets (non-derivative)**

Financial assets not classified as at fair value through profit or loss and loans and receivables are assessed at each reporting date to determine whether there is objective evidence of impairment.

An impairment loss is calculated as the difference between an asset's carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognised in profit or loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through profit or loss.

#### **ii) Non-financial assets**

The carrying amounts of the Company's non-financial assets (other than inventories) are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated in order to determine the extent of impairment loss (if any). Where it is not possible to determine the recoverable amount of an individual asset, the Company estimates the recoverable amount of the Cash Generating Unit (CGU) to which the asset belongs. An impairment loss is recognised if the carrying amount of an asset or its CGU exceeds its recoverable amount.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

Impairment losses are recognised in profit or loss. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised.

### **39.16 Contingencies**

#### **i) Contingent liability**

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are not recognised in the statement of financial position of the Company. Moreover, contingencies arising from claims, litigations, assessments, fines, penalties, etc. are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated.

#### **ii) Contingent asset**

Contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

The Company does not recognise contingent asset.

### **39.17 Earnings per share**

The Company represents basic earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, for the effects of all dilutive potential ordinary shares. However, dilution of EPS is not applicable for these financial statements as there was no dilutive potential ordinary shares during the relevant periods.

### **39.18 Events after the reporting period**

Events after statement of financial position date that provide additional information about the Company's position at the statement of financial position date are reflected in the financial statements. Events after statement of financial position date that are non-adjusting events are disclosed in the notes when material.

# Annual Report Review Checklist

Particulars	No.
<b>Corporate Objectives, Values &amp; Structure</b>	
Clarity and presentation:	
• Vision and Mission	06
• Overall strategic objectives	06
• Core values and code of conduct/ethical principles	07
