

Quarterly Update: Q1 FY20

This update seeks to provide an overall summary of the operating performance and demand trends witnessed in the quarter ended 30th June 2019. This will be followed by a detailed Information Update once the Board approves the financial results for Q1 FY20.

The quarter was characterised by moderation in the overall demand environment, which also reflected in the consumer sentiment indicators for the period. With sluggishness in wholesale persisting, rural stayed ahead of urban in the traditional channel. Modern Trade and E-Commerce continued to headline growth, while CSD had a normal quarter. The progress of the monsoons after a late onset, recovery in liquidity conditions and execution of the various government schemes announced will be keenly watched for signs of a revival in consumption trends.

Parachute Rigids began on a very strong footing. However, the non-focused coconut oil portfolio declined in a falling input cost environment. **Value Added Hair Oils** also exhibited strength, but fell a bit short of the medium term target. **Saffola Edible Oils** had a slow start vis a vis our expectations but is expected to pick up some pace in subsequent quarters on the back of marketing initiatives rolled out during the quarter. **Healthy Foods** and **Premium Hair Nourishment** grew healthily, while **Male Grooming** had a muted quarter.

Bangladesh and **Vietnam** led the growth in the International business, while other markets stayed afloat.

Lower input costs should translate into improved profitability during the quarter, despite stepped-up investments towards brand building.

Keeping up the momentum of innovation in Healthy Foods, the Company launched **Saffola Perfect Nashta**, comprising a range of 3-minute ready-to-cook mixes of traditional Indian breakfasts such as idli, dosa, upma (semolina) and poha (rice flakes), with a perfect balance of traditional spices fortified with 5 essential nutrients.

The Company will continue to drive sustained profitable volume-led growth over the medium term, through its focus on strengthening the franchise in the core categories and driving the new engines of growth towards gaining critical mass.
